A Nine-Reel Matinee For School Children Tomorrow

The hours at which the Imperial's "Fall of Pompeii" picture will be commenced tonight are 7 o'clock and in the vicinity of 9. The vaudeville and singer will precede the picture in both instances. Persons not able to be in the theatre by 7.30 can be assured of seeing the full programme if on hand by nine o'clock. Tomorrow, Saturday afternoon, the school children's matinee will be one continuous nine reel programme, with musical act and singer in addition. The programme will be as follows: Miss Ashe (soprano), the Mudge-Morton Musical Trio, a one-reel Pathe comedy drama, a one-reel western story by the Essanay Company and the first of the "Old Doc Yak," animated cartoons by the Selig Company. These miscellaneous pictures will be followed by the spectacular Pompeian picture in six reels. The programme will last until nearly 5 o'clock. The difference between a dunce and a bright child may be the difference in their eye-sights. Many a scholar has found it impossible to study because of weak eyes.

If your child is not doing so well in his school work as you think he should, it is your duty to have his eyes examined.

Not only that he may get along better in school, but also to avoid the risk of doing his eyes permanent injury.

**LAST NIGHT AT VICTORIA STREET REVIVAL SERVICE**

There was a very large attendance at Victoria street Baptist church last evening to hear the evangelist, Rev. Dr. Burrows. He took for his text, "I waited patiently for the Lord and He inclined unto me and heard my cry."

The preacher said that David had been for a long time in right relations with God, but there came a day when his enemy overcame him. There were two classes of temptation, gradual and sudden. The former led a man down gradually but surely until he gave up his religious duties and drifted into evil habits. David's temptation was sudden. He was on his guard, but down he went, and when the peace and light were gone he turned with a sad heart and cried unto God.

Some yielded to sudden temptation, some did not. The preacher told of a prince who caused a slave to weld a chain and then had him bound with the chain and cast into a pit to die. He who yielded to temptation welded the chain with David who to God and heard and he was brought out clean and clear. God's forgiveness was complete, but there must be true repentance. David repented and God heard his cry. There were pits of jealousy, of enmity, and a host of others into which people fell, but if they truly repented God would lift them out and send them into life with a new, clean, unburdened and untrammelled heart, ready to do the best work for God and man.

Dietetics was the subject of an interesting lecture delivered by Miss Jessie Church in the Natural History Society rooms yesterday afternoon. The speaker pointed out the importance of proper and sufficient food, the neglect of which was the cause of more deaths and imperfect development than all other causes combined. Economy in the purchase of food, the different kinds of food necessary for all ages and occupations, and the preparation of all kinds of eatables, were dealt with in a very instructive manner. The lecture was greatly enjoyed and a vote of thanks was tendered Miss Church.
