ONLY FEW DAYS MORE

Dog owners who have not yet secured licenses must do so within the next week. The double fee of \$2 and \$4 will go into effect on Tuesday, July 1, and must be paid by all who have not paid before that date. So far 1,195 dogs have been licensed with brass tags of the 1913 model, but there are others yet to be heard from. Last year the total number of licenses issued was 1281, but this was regarded as somewhat fewer than the actual number of dogs in the city. The civic by-laws provide for fines of \$5 and \$10 for those who do not take out the proper license for their pets, and provision is made for the enforcement of the fines by seizure of property or arrest of the person.

SUMMER SERVICE IN OPERATION ON I. C. R.

The Changes in the Depot Making For Better Accommodation For Public

The summer time table on the I. C. R. became effective yesterday. The only local change is that the train leaving at 11:20 a.m. is again put in service, connecting with the Boston, arriving at 11:10 a.m. The running of the extra Sunday trains will make no change on this section.

The summer traffic has not yet begun to be heavy, although there is a noticeable increase, and each week adds to the passenger lists on the trains coming and going. By the latter part of this week, or early next, it is expected that the tourist travel will be well under way and the railway officials are looking forward to an excellent season.

Several changes are being made about the interior of the Union Depot and will improve its appearance considerably. The old-time ticket office in the centre of the building is now almost completely removed only the front and a portion of two sides being left standing, and this will be moved back to where the former news agency was located and used as the front of the new ticket office. This is expected to be a distinct improvement. The news agency has been removed to the centre part. Both of the large doors at the rear of the station are now swung entirely open, leaving, with the exception of a centre pillar, a clear floor space from the entrance to the depot to the outer shed. It is planned to have this pillar also removed. Extra heating appliances are to be installed, and the station will be made much more up-to-date.

SEAPORT MISSION FOR THE WEST END

Branch of City Organization Was Opened Last Evening

A new mission was opened on the West Side last evening under the name of the West End Seaport Mission. The opening service was attended by a large gathering, and those in charge of the work feel that the mission will meet with success. This mission is the result of the work done by the Seaport Mission on Walker's Wharf, and the work is being strongly supported by the churches on the West Side. The officers wish to thank the following for their generous assistance: The C. P. R. for the hall; McDonald, Mack, Co. for an organ; Auer Light Co. for lamps; Charlotte Street and Ludlow street Methodist and Presbyterian churches for chairs, books and benches; Mr. Currie for chairs.

The officers of the West End Seaport Mission are H. E. Currie, president; Z. Wilson, assistant; ministers of the various West Side churches, advisory committee.

The meeting of the Seaport Mission, Walker's Wharf, the parent body of the mission, was also well attended last night. It was addressed by Mr. Murphy of the Dredge Fielding. Visitors are cordially invited to attend either of the missions and judge for themselves as to the value of these missions to a seaport centre like St. John. Thanks are due to the many citizens who cheerfully support them financially and to others who give their time and talents free of charge.
