

FREE FIGHT AT LACROSSE GAME

WESTMINSTER BEAT
THE EASTERNERS

Penalties Totalled Two Hours and
Ten Minutes—Royals Get Six
Goals to Two

Vancouver, Oct. 2.—A free fight and general rough play marked the game played by the New Westminster twelve and Nationals yesterday afternoon at Recreation park when the champions emerged victorious from the scrappy encounter by a score of 6 goals to 2. The score, by the way, does not provide a proper criterion of the day's play for the easterners were certainly not on that consideration four goals to the bad. As a team they lacked the combination they should have possessed, and even the brilliant individual rushes of Laviolette and Gauthier were not sufficient to turn the tide into the channels of victory for them.

Taken on the whole, the exhibition was one of the most ever presented and provided a spectacle of rough play rarely, if ever, equalled in these parts. While there was dazzling pieces of fine team work at times, the non-played by the easterners was certainly not on that consideration four goals to the bad. As a team they lacked the combination they should have possessed, and even the brilliant individual rushes of Laviolette and Gauthier were not sufficient to turn the tide into the channels of victory for them.

There are many more games similar to that of yesterday that will unquestionably sound the death knell of lacrosse, for its patrons, who number among Canada's best, are supporters of clean, fair play. To say the least, it was disgraceful and did not reflect to the credit of either team. Another unfortunate feature was that a certain section of the spectators encouraged the players in the dirty tactics. It was a deplorable struggle and some steps must necessarily be taken by the executive of each club to see that there is not a repetition of such conduct in the remaining games that are to be played.

Deliberate slashing was indulged in, and it was no uncommon sight to see men bowled over and struggling and hitting one another on the ground. People went to see a lacrosse match, but they saw more of a slugging game than anything else, and it is safe to say that some of the combatants are feeling rather stiff from their bruises to-day.

The free fight which ensued in the second quarter and the rough play which occurred thereafter cannot be condoned so strongly for those who will sit on the game for the first time will not treasure the memory of Canada's national sport very warmly. The altogether too vigorous movements which stamped the game with brutality, detracted immensely from an exhibition which otherwise might have proved attractive, for both twelve bear the reputation of being exceptionally fast.

Compared with the Minto cup series, the encounter must be ignored for it fell away below the standard of reasonable anticipation. How the free fight really started nobody really knows. All that was seen as the active forces of humanity piled one on top of the other was that there was a great deal of exchanging of crose sticks and a combined tactic display. Tommy Gifford slashed at Laviolette and the latter naturally resented it. Instantly both players bore to the ground with the Frenchman on top. Laviolette was altogether too strong for Gifford and pummeled him rather too severely. A number of players of both teams shook out of the ground with the Frenchman on top. Laviolette was altogether too strong for Gifford and pummeled him rather too severely. A number of players of both teams shook out of the ground with the Frenchman on top.

Peeney and B. Marshall, 5 minutes each, and W. Turnbull two penalties, one for 5 minutes and the other for the remainder of the game, then being only a few minutes to play.

Total: Nationals, 30 minutes; New Westminster, 50 minutes. The banishment of the three players ruled off entirely is not counted. Officials: Referee, Matt Barr.

Timekeepers, J. J. Johnston and B. F. Armstrong.

Penalty timers, P. A. Devine and E. H. Savage.

Goal umpires, Bonies Allen and C. A. Bourne.

REORGANIZATION OF NANAIMO LIBERALS

Officers for Year Elected at Enthusiastic Meeting of the Association

Nanaimo, Sept. 30.—Liberalism in Nanaimo never held a more enthusiastic and representative meeting than the one last night, when the party was re-organized, officers elected and many matters of party interest discussed.

Ralph Smith, M. P., the representative of the district in the House of Commons, was present and dealt with issues and questions affecting the Liberal party, dealing particularly with the work of reorganization in this city and district.

The meeting was opened by George Johnson, former president, who resigned that position owing to his being non-connected with the local customs staff. The resignation was accepted, and the following new officers elected: President, F. A. Macdonald; vice-president, Harry Shepherd; secretary, Alex. Forrester; treasurer, James Bradley; executive, Messrs. John Greenhields, Arthur B. H. Spencer, M. Woodburn, Dr. Drysdale, William Hart and John Carr. Delegates to the provincial executive, Alex. Forrester.

The meeting passed a unanimous vote of confidence in the member, who recently was appointed organizer for the Liberal party in British Columbia, the vote of confidence being replied to by Mr. Smith, who expressed the hope the vote would soon come when he would receive a majority vote in Nanaimo.

The meeting decided to fix up permanent quarters in the premises visited last night which will be known as "Liberal Hall" on the corner of the street, in which place meetings will be held weekly.

RECORD TRIP FROM BULKELEY

PARTY OF 23 TRAVEL
FOR ONLY FOUR DAYS

Transferred to G. T. P. Steamer at Skeena Mouth—Brought on the Prince Rupert

(From Monday's Daily.)

What constitutes a record in transportation from the interior of Bulkley valley to Vancouver was accomplished by a party of 23 passengers who landed from the G. T. P. steamer Prince Rupert at the mainland port on Saturday morning, four days after leaving Telkwa. The last named place is 56 miles east of Hazelton, the town at the headwaters of the Skeena river, and made the trip of 250 miles by stage and the steamer Hazelton to Prince Rupert. The Hazelton caught the Prince Rupert in the mouth of the river after she had left the mainland and transferred the party who reached Vancouver four days after starting on their long journey.

The Prince Rupert, which reached port on Saturday night and sailed again last night for the north, brought down about 170 passengers and arrived at Vancouver an hour ahead of schedule. The earliest of her arrival was due to the birth of a son to Mrs. McLeod, a passenger, wife of Capt. McLeod, who was making the round trip to Stewart. When the event occurred at 4 a. m. Saturday the Rupert was six hours from Vancouver, but Capt. Barney Johnson immediately sent a wireless to port asking that an ambulance and Canadian agents the steamer and forced his vessel along at increased speed. The passengers, according to a time-honored custom, purchased a pure lemon on Saturday morning, causing the loss of at least a score of lives.

Mayor Alexander to-day named the five daily newspapers of Los Angeles and four banks as donors of the fund for the widows and fatherless children of the men who lost their lives in the disaster. Many of these said to be in straitened circumstances. Efforts will be made to raise at least \$20,000 for distribution.

Another body, the eighth recovered, was taken from the wreckage at noon. Police at Work.

San Francisco, Cal., Oct. 3.—The local police now working on clues believed by the authorities to lead to the possible discovery of persons who dynamited the Los Angeles Times. The local department has received no communication since the disaster at Los Angeles. The police consequently have made no investigation of the reported sale of dynamite to three men here on September 20, said to have been identified by the Giant Powder Company officials as the same as that found under the home of F. J. Zechandalar in Los Angeles.

HAZELTON HAS FINE HOSPITAL

Beautifully Situated and Well
Equipped—Dr. H. C. Winch
is Superintendent

Prince Rupert, Sept. 30.—Dr. A. H. Wallace, of the Hazelton hospital, who paid a visit to Prince Rupert a few days ago, spoke very enthusiastically of the institution with which he is connected.

"It is certainly a beautiful location," said Dr. Wallace, "and in addition to that is the finest and best equipped hospital north outside of Vancouver. It stands in its own grounds, some three hundred and twenty acres in extent, of which about twenty acres have been cleared and are under cultivation. So that our patients have the benefit of fresh meat, vegetables and fruit, which is a great aid to their recovery."

"Also we have gas and sewerage and water system on the most modern lines, and indeed the whole of the furnishing and the surgical and other equipment is strictly up to date."

Dr. H. C. Winch, the superintendent, and under his charge the hospital has grown to be a very popular institution. We take care of the Indians but most of the railway men. The contractors have their own hospital arrangements. But we take patients from all over the northern country as far as Prince Rupert, and up the telegraph line to Ninth Cabin, which is two hundred and fifty miles north. We have a staff of five nurses and during the past summer they have been fully equipped with the latest twenty-two patients and we now have twenty, which is about the average."

MORE DYNAMITE IS DISCOVERED

FOUND IN VACANT
HOUSE AT LOS ANGELES

Plants of Several Industrial Concerns Are Now Guarded by Police

(Times Leased Wire.)

Los Angeles, Cal., Oct. 3.—A dozen detectives were assigned to-day by Chief of Police Galloway to investigate the discovery of four sticks of dynamite and a box of fuiminating caps in a vacant house on Aliso street, near the plant of the Los Angeles Gas Company.

The explosive was discovered by E. D. Morrow, a watchman for the gas company. The dynamite was wrapped in a solid newspaper bearing the date of August 30, 1908. The officers are working on the theory that the stuff was stored in the house to be used to dynamite the gas plant or the water brewery, which is less than a block distant.

The dynamite was taken to the Central station, where it is held pending developments.

Police are guarding the homes of General Harrison Gray Otis, proprietor and general manager, and of Harry Chandler, assistant general manager of the Times. Guards also are watching over the plants of several industrial concerns which recently have been involved in strikes.

Rewards totalling \$3,000 will be paid to the person who brings about the arrest and conviction of the person or persons responsible for the explosion and fire that destroyed the building of the Los Angeles Times on Saturday morning, causing the loss of at least a score of lives.

Mayor Alexander to-day named the five daily newspapers of Los Angeles and four banks as donors of the fund for the widows and fatherless children of the men who lost their lives in the disaster. Many of these said to be in straitened circumstances. Efforts will be made to raise at least \$20,000 for distribution.

Another body, the eighth recovered, was taken from the wreckage at noon. Police at Work.

San Francisco, Cal., Oct. 3.—The local police now working on clues believed by the authorities to lead to the possible discovery of persons who dynamited the Los Angeles Times. The local department has received no communication since the disaster at Los Angeles. The police consequently have made no investigation of the reported sale of dynamite to three men here on September 20, said to have been identified by the Giant Powder Company officials as the same as that found under the home of F. J. Zechandalar in Los Angeles.

Police at Work.
