TWO TYPE CASES IN RAILWAY BELT

JAMES DUNSMUIR IS LOOKING TO OTTAWA

He Expects the Settlers' Rights Act of Last Session to Be Dis-

allowed.

The Vancouver Island Settlers' Rights 'Act of last' session will be subjected to a test now that the provincial government has accepted applications under it for crown grants to lands. The circumstances connected with the two claimants differ considerably. -and they will constitute different types of the matter which goes to the courts for decision. David Hoggan's block of 160 acres is that from which he was evicted as having no rights. Geo. McGregor was given the surface rights to his 160 acres, but was deprived of all undersurface rights.

The crown grant to be issued under the act of last session would convey to both these claimants the full title both to the surface and under surface rights. land has been the pet scheme of J. H. Hawthornthwaite since he entered the provincial House. Indefatigably he has years. He made a thorough study of the subject, and is well informed upon it. In 1902 he made a telling speech in favor

of the settlement, recounting the whole history of it. To him is due the credit for bringing it to its present position. Whether or not it will prove effectual in giving to the claimants what they de-mand remains to be seen, as the issuing of the crown grants is the simplest part of the work. The weak condition of the McBride

government upon meeting the House last geo. COURTNEY HAS thwaite's power to demand the settlem of this question along the lines proposed by him. The Premier and his following who had the year before come out against such a measure were ready converts when power was assured in return. With no compunctions, therefore, the Premier introduced the bill setting forth in its preamble the following as the reason for the act, whereas certain of the settlers within the Esquimalt & Nanaimo railway land belt were evicted in 1895 at

the instance of the Esquimalt & Na-naimo Railway Company on decision of the courts that the land was not open for settlement; and whereas all of said set-Mexico. The principal feature of this will be the field sports, to take place on the after-noon of Saturday the 11th. These will include a more lengthy list of events that was the case last year. Valuable prizes will be offered and, as a general interest is being taken in the sports, it is expected that they will be a signal success from every standpoint. On the same afternoon it is altogether probable the tug-of-war competition will be held. The cup is now in the possession of a team selected from No. 5 company. There is considerable rivalry between several teams this year, and the present cham-pions will likely have some difficulty in

entertainment of some kind. Members of the associations of the various companies will be called upon to provide an impromptu musical programme on each alternate evening. The Fifth Regiment
