This would leave the premiership of the Northwest vacant and either Mr. Bullyea or A. L. Sifton would succeed. A joint survey of the international boundary between the state of New York and Canada is now in progress. C. A. Biggar of Ottawa is acting for the Dominion.

BUT ST. JOHN WAS ALL RIGHT.

HALIFAX, N. S., Oct. 24.-That the Duke of Cornwall was a little disapointed with the reception given him in Halifax is stated on excellent authority. His royal highness remarked on the feebleness of the cheers and the apparent lack of enthusiasm that characterized his appearance in this city. The Halifax people certainly did not cheer loudly. They never cheer loudly under any circumstances, but that the Duke should notice what looked apathy on his visit has only now become generally known. Another thing is nothworthy, though, of course, not a word was said about it by the Duke and this is, that Halifax was one of the few large cities in Canada where no present was made to the Duchess.

company had to pay three shillings a ton for unloading, and on the whole deal was on two shillings and six pence a ton on the freight. A similar experience by the Lake Ontario was quoted, on which the company lost four pence a ton. Mr. Campbell concludes by remarking that there may be glory in running boats on the St. Lawrence route, but he wants to know where the money comes in.

ST. JOHN SCHOONER IN TROUBLE.

PORTLAND, Me., Oct. 24.—The U. S them fit the chambers of the Young American revolver. The four shells taken from the revolver found as described above, were chipped in the same way. The object of the reinforcements of American troops now being pushed forward is to increase all the garrisons to thirty-eight men. Some of them have until recently numbered only eight men. The reinforcements will also allow the detailing of a working force to operate in the field, hunting for insurgents.

Gen. Wheaton reports that a band of Bolomen have entered Tarlac province, Island of Luzon, through Bulangan province, and that the men composing it are distributing inflammatory bulletins, which are also posted on the church doors, warning the people to prepare to take the field in January.

A harmonious agreement has been reached between Governor General Taft and Gen. Chaffee regarding habeas corpus proceedings in the case of military prisoners. The law has been amended so as to cover such cases.

PEKIN, Oct. 23.—There is strong opposition among conservative Chinese officials to Wu Ting Fang, Chinese minister at Washington, retaining a foreign mission. Those who take this view consider that his popularity abroad is a proof that he is not sufficiently loyal to the interests of China. It is probable that he will be recalled and given a position on the new board of foreign amains, where his linguistic and legal attainments may be utilized under the eye of the government.

Li Hung Chang and Prince Ching continue jointly with the questions currently submitted by the ministers of the powers. They still sign themselves as plenipotentiaries, although it was supposed by the foreign envoys that their duties in that capacity ended with the delivery of the indemnity bond.

They are along the powers to a more strict enforcement of the treety stipulations requiring foreigners to give notice of an intention to go into the interior in order to afford oportraity for making protective arrangements. This stipulation had been largely ignored of late years, and its revival and vigorous enforcement would chiefly hamper the missionaries.
