A NEW WORK: ORIENTAL RELIGIONS AND THEIR RELATIONS TO Universal Religion-India. DUTCH BULBS. BY SAMUEL JOHNSON.

The Springfield Republican says:—

AMUEL JOHNSON'S remarkable work entitled "Oriental Religions," is devoted wholly to the religions and civilization of India: is the result of twenty years' study and reflection of one of the soundest scholars and most acute thinkers of New England, and must be treated with all respect, whether we consider its thoroughness, its logical reasoning, or the conclusion, unacceptable to the majority no doub', at which it arrives. This conclusion, briefly stated in the introductory chapter, is this: "The mission of Christianity to the heathen is not only for the overthrow of many of their religious permiarities, but quite as truly for the essential modification of its own."
