

Cartwright may be purchased at 10/Cy. per acre. if such be the case they can be paid for without much inconvenience to the Indians.

The arrearages of annuity due to his people amount to about £300 which would pay for two thirds of the land in the Township of Cartwright without encroaching on the annuity for the current year and I have no doubt the present owner of the aforesaid land would be quite willing to wait for a reasonable time for the balance.

The proceeds of the sale of the tract at Balsam Lake could be invested to their use and thus add to their present annuity.

Saml. P. Jarvis.

Rawson W. Rawson, Esq.
