

## It Pays to Paint in the Fall!

### The better the Paint, the better it pays.

It pays, because the wood is free of moisture and, no hot sun to blister the paint.

It pays, because there are not many rainy, cloudy days, and the flies and bugs are gone.

It pays, because the paint has a better chance to take hold of the wood and dry hard and smooth, protecting the surface better for the eight roughest months of the year.

**And it certainly does pay to buy good paint. It pays, in the fresh, bright colors—it pays in protection—it pays in the longer wear.**

There isn't much difference between what you pay for good, honest paint, and "cheap" paint—but there's a big difference in what you get.

Martin-Senour 100% Pure Paint—(Pure White Lead, Zinc and Linseed Oil Paint)—is the kind that takes less and wears longer.

Such paint as this on your house, is a good investment. It brings daily returns in pleasure, protection and profit.
