Stomatopora	11
Structural features of St. Hilaire and Rougemont.....	20
Superposed drainage of St. Lawrence lowlands.....	18
Syenite at contact with included marble.....	44

T

Talc.....	80
Tawite, chemical relations to nepheline-sodalite-syenite, St. Hilaire mountain.....	87
“ feldspathic type, St. Hilaire mountain, petrology of.....	46
“ field relations to nepheline-sodalite-syenite.....	46
“ St. Hilaire mountain, chemical analysis of.....	48
“ “ “ mineral composition of.....	49
“ variations in.....	49
Teall, J. J., and Geikie, Sir A., cited.....	23
Tinguaite, Brome mountain.....	7
“ comparison of varieties.....	59
“ dykes, St. Hilaire mountain, petrology of.....	57
“ St. Hilaire mountain, chemical analysis of.....	61
“ variety No. 1, petrology of.....	59
“ variety No. 5, petrology of.....	59
“ porphyry, St. Hilaire mountain, petrology of.....	62
“ sheets, St. Hilaire mountain, mode of occurrence.....	60
“ “ St. Hilaire mountain, petrology of.....	60
Titaniferous augite.....	52, 65, 71, 75
Titanite.....	29, 35, 49, 52, 53, 55, 59, 62
Tourmaline.....	62
Trachyte at Chambly.....	5
Trenton limestone block in St. Hilaire syenite, fossils from.....	24
Trinucleus concentricus (Eaton).....	14
Tubiculus annelida.....	12

U

Ulrich's opinion on fossils from St. Hilaire.....	11
Umptekite of St. Bruno.....	4
Unknown colourless mineral.....	42
Unknown mineral.....	61
Ussing, N. V., cited.....	43, 45
Utica(?) age of strata near Caroline station.....	14
