

# INDEX

	PAGE		PAGE
Ammoniacal copper carbonate.....	26	K. L. B. P. ....	23
Arsenical compounds .....	3	Kno Bug .....	9
Arsenic, white .....	3, 4, 6	Lead arsenate .....	11
Arsenic, pentoxide .....	3	Lead arsenate, commercial.....	12
Arsenoids .....	11	Lead arsenate, home-made.....	13
Atomic sulphur .....	16	Lead arsenate and lime-sulphur wash combined .....	20
Black death .....	8	Lime, effect of adding to Paris green .....	5
Bordeaux Mixture .....	30	Lime, suitable for making con- trated lime-sulphur wash. 20	20
Bordeaux paste .....	33	Lime, addition to lime-sulphur wash .....	18
Bordeaux soda .....	33	Lime-sulphur washes .....	16, 38
Bordeaux, Woburn .....	34	Lime and lead arsenate combined	20
Bug Death .....	10	London purple .....	7
Calcium arsenite .....	15	Liver of sulphur .....	39
Carbolic acid .....	28	Paris green .....	3
Carbon bisulphide .....	27	Paris green, adulterants and de- tection .....	6
Contact remedies .....	15	Paris green, commercial substi- tutes for .....	8
Copper carbonate .....	35	Paris green, precautions in use of	5
Copper sulphate .....	37	Potassium sulphide .....	39
Corrosive sublimate .....	39	Potato bug finish .....	9
Crude petroleum .....	21	Pyrethrum powder .....	29
Eau Celeste .....	36	Pyrox .....	37
Food poisons .....	3	San José scale, other insecticides recommended for .....	20
Formalin .....	38	Slug shot .....	10
Fungi, classes of .....	2	Soap washes .....	24
Fungicides, Copper salt .....	30	Sulphur .....	16
Fungicides, containing no copper.	38	Tobacco .....	29
Hellebore, white .....	29		
Hydrocyanic acid gas .....	26		
Hydrometer, how to use .....	18		
Insects, classes of .....	2		
Kerosene and lime .....	22		
Kerosene emulsion .....	22		
K. L. B. ....	23
