

**Tonsillitis, Follicular** (*continued*)

Peroxide of hydrogen solution in, I. 21

**Tonsils, Diseases of**, I. 14—21**Torticollis**. See Rheumatism,

Chronic muscular, II. 460—64

Tracheotomy for diphtheria, II. 595—96

for oedema of the glottis, I. 554

*Trichocephalus dispar*, I. 305, 324

**Tubercular meningitis**. See Meningitis, Tubercular, II. 242—47

**Tubercular peritonitis**. See Peritonitis, Tubercular, I. 334—42

**Tuberculosis, Pulmonary**. See Phthisis, I. 715—II. 77

**Tumour, Intracranial**, II. 263—68

Causation of, II. 265

Focal symptoms, II. 266

Forms of, II. 264

Mercurial inunction in, II. 266, 267

Potassium and sodium iodides in, II. 266

Surgical measures in, II. 267

Symptoms of, II. 266

**Typhlitis**. See Perityphlitis, I. 260, 261, 267

**Typhoid, or Enteric fever**, II. 600—706

Acetozone in, II. 688

Alcohol in, II. 687

Antiseptic treatment, II. 687

Antityphoid serum in, II. 687

Aperients in, II. 692

Bacilli in, II. 669—72

Bed-sores in, II. 705

Boric acid in, II. 688

Calcium lactate in, II. 708

Calomel in, II. 688, 692

Carbolic acid in, II. 688, 694

Carbonate of guaiacol in, II. 688, 694

Characteristic lesions of, II. 673

Chlorine in, II. 688—90

Chloroform in, II. 694

Corrosive sublimate in, II. 680, 688

Course of, II. 673—75

Creasote in, II. 688

Diarrhea in, II. 701

Diet in, II. 683—86

Diffusion of, II. 671

Hæmorrhage in, II. 702

High temperature in, II. 696—97

Hydrotherapy in, II. 696—701

Indications for treatment of, II. 682, 687

Iodine in, II. 688

Laparotomy in, II. 708

2 z

**Typhoid or Enteric fever** (*continued*)

Maintenance of patient's strength in, II. 692

Naphthalin in, II. 688

Naphthols in, II. 688, 693

Nature and origin of, II. 600—70

Nervous symptoms, II. 704—5

Oil of eucalyptus in, II. 688

Perforation of the intestine in, II. 703

Prophylaxis and disinfection, II. 679—81

Protective inoculation against, II. 675—76

Quinine in, II. 688, 690

Relapses in, II. 675

Salicylate of bismuth in, II. 688

Satol in, II. 688, 693

Stimulants in, II. 687—88, 703—4

Sulphuric acid in, II. 688, 693

Symptoms of, II. 673

Thymol in, II. 694

Treatment of complications of, II. 696

Treatment of convalescence from, II. 705—6

Trypentine in, II. 688, 695

Urotropine in, II. 688, 695

Vaccine in, II. 676

See also Additional Formulae, II. 711, 712

**Typhus fever**, II. 707—II

Course of, II. 707—8

Diet in, II. 710

Diffusion of, II. 707

Hypodermic injections in, II. 710

Incubation period of, II. 707

Open-air treatment of, II. 710

Quinine in, II. 709

See also Additional Formulae, II. 712

**Ulcer of the Duodenum**. See STOMACH AND DUODENUM, ULCER OF THE, I. 71—95

**Uremia**, in Bright's disease, II. 218—19

General considerations, II. 155, 156

**Urinary and renal affections**.

See Albuminuria, II. 180—85;

Bright's disease, II. 205—40;

Chyluria, II. 179—80; Cystitis,

II. 200—3; Hæmaturia, II.

173—77; Hæmoglobinuria, II.

177—79; Hydronephrosis, II.

196—97; Lithiasis, II. 157—

66; Oxaluria, II. 166—70;

Phosphaturia, II. 170—73;

Pyuria and Pyelitis, II. 197

—200; Renal calculi, II. 187

—90; Renal colic, II. 190—94
