THE real and substantial advantages afforded to the Public by well-regulated Establishments for the Assurance of Lives, and the sound basis on which these institutions are founded, are proved, incontestably, by their complete and continued success, and by the remarkable fact, that, in no one instance, have they ever failed in their engagements, in consequence of an exhaustion of the Funds provided to meet the claims. No decided and so manifest are the benefits resulting from the system of Life Assurance in general, both in regard to the Provision it affords to Families in the event of premature death, and the Security it gives to Creditors for debts otherwise irrecoverable, that with every increase of information and intelligence, there appears to be excited, on the part of the Public, an increased desire to participate in its protective advantages. So sound and unerring also are the principles on which Life Assurance Companies are based, that neither commercial difficulties and distrust on the one hand, nor accidental maladies on the other, have ever yet affected their stability or impeded their successful progress.

ASSURANCES MAY EITHER BE EFFECTED BY PARTIES ON THEIR OWN LIVES, OR BY PARTIES INTERESTED THEREIN ON THE LIVES OF OTHERS.

The effect of an Assurance on a person's own life is to create at once a Property in Reversion, which can, by NO OTHER MEANS be realized. Take, for instance, the case of a person of the age of Thirty, who by the payment of 45 3s. 4d. can become at once possessed of a bequeathable property amounting to £1000, subject only to the condition of his continuing the same payment quarterly during the remainder of his life;—a condition which may be fulfilled by the mere saving of eight shillings weekly in his expenditure. Thus, by the exertion of a very slight degree of economy—such, indeed, as can scarcely be felt as an inconvenience, he may at once realize a capital of £1000, which he can bequeath or dispose of in any way he may think proper.

Assurances may be advantageously effected on the lives of others, either for the purpose of securing loans or debts, or in any case where the party has an interest in the life of another, so as to be in any way prejudiced in the event of his decease. To secure a Policy of Assurance affords a certain, and in many cases the only means of security.—The debtor is too frequently unable to pay the premium for an Assurance on his life; and the creditor, to whom security is the main object to be regarded, may make the payment of such Premium the condition of his forbearance in not insisting upon the immediate payment of his demand. In the same manner the circumstances and prospects of Widows and Children, and for every possible contingency affecting human life, against which it may be prudent or expedient to provide.

In addition to the published rates, an extensive set of Tables has been computed for Assurances; also for Reversionary Annuities, Endowments for Widows and Children, and for every possible contingency affecting human life, against which it may be prudent or expedient to provide.

AMONG OTHERS, THE FOLLOWING IMPROVEMENTS ON THE SYSTEM USUALLY ADOPTED, ARE RECOMMENDED TO THE ATTENTION OF THE PUBLIC:—

A Table of increasing rates of Premium on a new and remarkable plan, peculiarly a valuable one in cases where Assurances are effected by way of securing loans or debts, a less immediate payment being required on a policy for the whole term of life than in any other office; and the holder having the option of paying a periodically increasing rate, or of having the sum assured diminished according to an equitable scale of reduction.

Officers in the Army or Navy, engaged in active service, or residing abroad, and persons afflicted with Chronic Disorders not attended with immediate danger, assured at the least possible addition to the ordinary rates, regulated in each case by the increased nature of the risk.

Ladies and others to whom it may be inconvenient to appear at the office, will be visited at their own houses, by one of the Medical Officers.

All claims payable within ONE MONTH after proof of Death.

No proof of Birth is required at the time a claim is made; the Age of the Assured, being in every case admitted in the Policy, cannot, under any circumstances, be afterwards called in question. Policies effected by parties on their own lives are not rendered void in case of death by duelling or the hands of Justice. In the event of suicide, if the policy be assigned to a bona fide Creditor, the sum assured will be paid without deduction; if the policy be not so assigned, the full amount of Premiums received thereon will be returned to the family of the Assured.

Policies having become forfeited in consequence of the non-payment of the renewal Premiums, may be revived without the exaction of a fine, at any time within twelve calendar months, on the production of satisfactory evidence relative to the state of the health of the Assured, and the payment of interest on the Premiums due.

By these and similar Regulations, many of which are peculiar to this Establishment, it is presumed that the important object has been attained of rendering a Policy of Assurance as complete an instrument of Security as can possibly be desired.

THE Subscriber having been appointed Agent to the above Company in this City, is prepared to receive proposals—and to give the requisite information as to the mode of effecting Assurances.

HÆMORRHOIDS—NO CURE NO PAY!
Price \$1—Hay's Liniment—No Fiction.

THIS extraordinary chemical composition, the result of science and the invention of a celebrated medical man, the introduction of which to the public was invented with the solemnity of a death-bed bequest, has since gained a reputation unparalleled, fully sustaining the correctness of the lamented Dr. Gridley's last confession, that "he dared not die without giving to posterity the benefit of his knowledge on this subject," and he therefore bequeathed to his friend and attendant, Solomon Hays, the secret of his discovery.

It is now used in the principal hospitals and the private practice in our country, first and most certainly for the cure of the Piles, and also so extensively and effectually as to baffled credulity, unless where its effects are witnessed externally in the following complaints:—
For Dropsy—Creating extraordinary absorption at once.
All Swellings—Reducing them in a few hours.

Rheumatism—Acute or Chronic, giving quick ease.
Sore Throat—By cancers, ulcers or colds.
Croup and Whooping Cough—Externally, and over the chest.
All Bruises, Sprains and Burns—Curing in a few hours.
Sores and Ulcers—Whether fresh or long standing, and fever sores.
Its operations upon adults and children in reducing rheumatic swellings, and loosening coughs, and tightness of the chest by relaxation of the parts has been surprising beyond conception. The common remark of those who have used it in the Piles, is "it acts like acham."

THE PILES.—The price \$1 is refunded to any one who will use a bottle of Hay's Liniment for the Piles, and return the empty bottle without being cured. These are the positive orders of the proprietor to the Agents, and out of the many thousands sold, not one has been unsuccessful.
CAUTION—None can be genuine without a splendid engraved wrapper, on which is my name, and also that of the Agents.

HEADACHE.

DR. E. SPOHN, a German physician of much note, having devoted his attention for some years to the cure and removal of the causes of NERVOUS AND SICK HEADACHE, has the satisfaction to make known, that he has a remedy which by removing the causes cures effectually and permanently this distressing complaint. There are many families who have considered Sick Headache a constitutional incurable family complaint. Dr. S. assures them that they are mistaken, and labouring under distress which they might not only alleviate, but actually eradicate by the use of his remedy. It is the result of scientific research, and is entirely of a different character from advertised patent medicine, and is not unpleasent to the taste. To be had of

MORISON'S UNIVERSAL MEDICINE.

NOTICE.
THE Subscribers, general agents for Morison's Pills, have appointed William Whitaker, Sub-Agent for the Upper Town, No. 27, St. John Street.

LEGGE & CO.
That the public may be able to form some idea of Morison's Pills by their great consumption, the following calculation was made by Mr. Wing, Clerk to the Stamp Office, Somerset House, in a period of six years, part only of the time that Morison's Pills have been before the public; the number of stamps delivered for that medicine amounted to three million, nine hundred and one thousand.

The object in placing the foregoing powerful argument in favour of Mr. Morison's system, and to which the public attention is directed, namely, that it was only by trying an innocuous purgative medicine to such an extent that the truth of the Hygeian system could possibly have been established. It is clear that all the medical men in England, or the world, put together, have not tried a system of vegetable purgation to the extent and in manner prescribed by the Hygeists. How, therefore, can they (much less individually) know any thing about the extent of its properties.
