QUEEN OF THE BLACK AND WHITES AT THE NATIONAL LIVE STOCK AND DAIRY SHOW

Dairy cattle were out in strength at Toronto last week; almost 300 head of them. Of these well over 100 were Holsteins. The subject of our illustration is the grand champion female, Cora Countess Echo, shown in the dry cow class by her owner, Hiram Dymont, Dundas, Ont. Her type is well worthy of study. It is the ideal for a cow of producing ability. Note the strong constitution as indicated in the deep, strong heart girth, the capacious middle that indicates feeding capacity, and the long straight hind quarters. We seldom make a mistake in buying a cow of this type.
