Please mention "The Farmer's Advocate."

### The Wonderful GILSON

"Everyone Said We Couldn't Do It."

Writes J. Geldner, of Berlin, Ont. He further adds: "We filled and re-filled a 12-ft. x 40-ft. silo in 16 1/2 hours with a 6 h-p. Gilson and an N-13 Gilson Cutter. The outfit also made a record in cutting straw, at the rate of five loads an hour."

"Surprised the Whole Community"

Writes J. K. McLennan, of Oakville, Ont. "With our 0-10 Gilson Cutter and 4 h-p. Gilson Engine we filled and re-filled three silos, sizes 14 ft. x 25 ft., 12 ft. x 28 ft. and 13 ft. x 28 ft., in six days."

YOU need one of these cutters. It will make you independent of the Cutter Gang. The two smaller sizes of Gilson Cutters are for light power—4 h-p. to 12 h-p. gasoline. They are farm machines, the same as your binder and your mower. With a Gilson you can silo your corn at just the right time—extending the work over several days if you wish, allowing the silage to settle. The best quality of ensilage is thus secured, without the expense of re-filling.

## Gilson Pneumatic Ensilage Cutters

The Gilson is not a one-season machine—it is built for many years of hard service. It is made entirely of steel and iron, with the exception of the feed table. All five main bearings are a part of the one-piece semi-steel frame, thus insuring perfect alignment of the cutting mechanism for all time. The drive is direct, and the power is transmitted throughout by heavy gears—thus chain troubles are completely eliminated.

The patented safety reverse makes accidents practically impossible. The drum or casing is steel—not dangerous cast-iron. The wheel is indestructible—steel bound, with no breakable parts, such as spokes or bosses. It runs at slow speed—600 to 800 r.p.m.

Every Gilson Cutter has six fans in place of the usual four. This is one of the reasons why the Gilson elevates in a larger and more constant stream. Also why it elevates heavy green corn so high with so little power.

WRITE FOR FREE SILO FILLER BOOK. It tells the Gilson story from start to finish—points out the advantages of the design, and describes the all-metal construction in such a way that you will understand why our machines cut and elevate to UNUSUAL HEIGHTS at SLOW SPEED with LIGHT POWER. This is a matter of dollars and cents to you. Send for your copy of this book to-day—learn all about the "Wonderful Gilson" line of silo fillers.
