Mr. Farmer! you are paying for good fences

Why not have them?

THAT'S the plain unvarnished truth—if you have not good fences around your fields you are paying for mighty good ones. But—don't take our word for it. Take a pencil and jot down what poor fences have actually cost you during the last few years. The total is a great deal more than the entire cost of good fences.

"Frost" Fences

are good fences---worth more than they cost

That's the candid opinion of hundreds of practical farmers—men who judge a Fence by its **durable** qualities—the **long years of service** they get out of it.

Here are the **real** reasons for the **lasting** qualities of the "Frost" Fence—the reasons why we so fearlessly **guarantee** it.

We know the **quality** of every rod of wire woven into the "Frost" Fence, for the very good reason that we **make** it at our **own** mills, every inch of it.

Lateral and upright wires are No. 9 Hard Steel of **thoroughly tested** stock. The laterals are permanently **waved**—this gives that **wonderful** resilience—the **come-back** qualities for which the "Frost" Fence is famed.

Note the tie wire—it is wrapped **several** times around **both** Laterals and Stays making an **extra** neat and **doubly strong** binding.

Remember this: You should judge a Fence by what **it is going to cost** --not by the price asked.

If you have any lingering doubts on the Fence question ask us to give you the names and addresses of farmers who know from experience. Or call on the "Frost" dealer of your locality—if you don't know him we'll introduce you. 40
