

Every Member of the Family should take an interest in Grain Marketing

*Who handles your Grain, and Why
Who should handle it, and Why*

Discuss these questions some wet day—or any day. Compare The Grain Growers' Grain Company with other grain concerns. Think of the handicaps that were met in all phases of marketing before this farmers' company was organized in 1906. A farmer couldn't get a car when he wanted one. He was obliged to take what was offered him in grade and in price. Complaining did him no good. Think of the fact that this pioneer farmers' company was organized by farmers who concluded that the only guarantee of a square deal lay in the handling of their crop by a business organization of their own. There are now over 16,000 shareholders and the business of the company both in handling grain and in supplying commodities and implements is under the control of the farmers themselves. Cash earned as commissions for handling grain is used to provide avenues through which farmers of the Canadian West can buy to better advantage and otherwise to improve conditions under which they work and conduct their business.

Write to us about apples, flour, coal, lumber, vehicles, engines, implements, etc.

To Saskatchewan Farmers:

Through an arrangement made with the Saskatchewan Grain Growers' Association for the year 1915, the Association will procure through this company such supplies as we are handling. Saskatchewan farmers can secure supplies from us by placing their orders through the Central Office of the Association at Moose Jaw. The purpose of this arrangement is to draw the different farmers' organizations closer together and by concentrating their purchasing power give still better service to the farmers of the three Prairie Provinces.
