

* To our Patrons in the Trade. *

IN presenting our CUTTER and SLEIGH CATALOGUE for 1894-95, we wish to draw your attention to the following points:—

- 1st.—We have added three New Styles and improved the designs of all.
- 2nd.—More care than ever has been exercised in selecting only the very best timber and material, and this, combined with first-class workmanship, enables us to give our customers a reliable article, possessing “a constitution that requires no doctoring.”
- 3rd.—The Painting brings out original shades, and yet harmony of color is maintained, which makes the finish very attractive.
- 4th.—We have procured a choice lot of Embossed Mohair Plush in rich shades of Crimson, Terra Cotta and Old Gold. The designs and workmanship in this department will stand any criticism.
- 5th.—Our large output of Cutters was exhausted last year before the end of the season, but this year we have prepared for a much larger demand and will be ready to ship early in the season.
- 6th.—We have something unexcelled for comfort (Patent Applied For) in a novel SPRING BACK constructed on an easy principle; natural to position of the body and a veritable BACK SAVER in crossing pitch holes. These Spring Backs and Spring Cushions are furnished with Nos. 14, 15, 17, 18, 19 and 75.
