The property is one of exceptional merit, having a clearly defined vein traceable for 2,000 feet. Samples taken from various points on the outcrop from the main workings at a depth of 70 feet, give excellent values averaging \$26 in gold. The ore is of a class that can be readily treated on the ground by milling and cyaniding.

Among other well-known properties in the Ymir district are the Ymir, Tamarac, Dundee, Blackcock,, Willcock, etc.
