By a Kick of a Horse
On the 2nd day of December, 1849

Yesterday's enrollment shows a total of 458 in attendance, however, while word has been received from sufficient additional ex-pupils, who will return in a short time, to ensure an enrollment of 500, which is a record for the school, and a figure which is looked upon with pride in view of present day conditions. Arrangements are being made at once to secure a full complement of teachers, and in the meantime substitutes are being engaged, and the work of the school will be proceeded with at once.

WEAR THOSE SHOES THAT TORTURED YOU

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Chiropractic authority, because a few drops of freezeone applied directly on a tender, aching corn stops soreness at once and soon the corn loosens so it can be lifted off, root and all, without pain.

A quarter of an ounce of freezeone costs very little at any drug store, but is sufficient to take off every hard or soft corn or callus. This should be tried at its inexpensive cost and is said not to inflame or even irritate the surrounding tissue or skin.

BRANTFORD ASKED TO SUPPLY A PLANE

Canadian Aviation Fund Requests A Donation From the City

The city of Brantford is to be requested by the Canadian Aviation Fund to donate an airplane to be used in training Canadian aviators at one of the various schools in this province.

A comprehensive plan for the manufacture of airplanes and the training of aviators in Canada is now being contemplated. One thousand mechanics exclusive of officers and students in training will be required. Each machine of the type being made under the supervision of the Imperial Munitions Board for the British Government costs \$7,500 and the total expense of the aviation service both training and equipment costs is being borne at present by the British taxpayer.

To lighten this burden, the Army Council has officially notified the Canadian Aviation fund that gifts of planes to the government by private individuals, municipalities and other bodies in the provinces of Canada will be gratefully accepted. Other cities including Hamilton have already been approached with the object of inducing them to contribute aircraft which will be manufactured in this country and devoted exclusively to the training of Canadian aviators for work in the air service.

Colonel William Hamilton Merritt, honorary secretary of the Aviation fund, has written city clerk Leonard regarding the visit of the Brantford delegates together with representatives of other cities, to the Aerodrome at Leaside during the session of the Ontario Municipal Association in Toronto last week. On that occasion Col. Merritt addressed the gathering, pointing out the two immediate necessities of the R. F. C.—recruits and aeroplanes. Capt. Beatty, recruiting officer for the R. F. C., has paid several visits to Brantford and has been assisted materially by Chief of Police Slemin and others. In the letter that was received this morning, Col. Merritt suggests the possibility of an early visit to the city by a deputation to discuss with the city council or any other bodies that might be interested, the gift of an aeroplane.

Not only would such an aeroplane, if donated, be useful during the present war, but if the agitation for more adequate defence is widespread enough the government may be induced after the war to maintain an air service to safeguard the coast line and border.

LOYALTY TO

can have no hesitation in supporting our republic which has made its own the cause and interests of all free peoples. It is therefore in truth not a 'capitalists' war, but a free men's war."

"We shall strip the mask from those who in name of democracy, anti militarism, and peace are engaged in the nefarious propaganda of treachery to all that these noble words represent. We indignantly repudiate the claim that this propaganda—which, be it remembered, brings joy and comfort to German autocracy—has the support of the noble movement of America. Not even at the behest of the so-called peoples council will the organized workers of America prostitute the labor movement to serve the brutal power responsible for the infamous rape of Belgium—the power that would subject Russia to a worse despotism than that of the Romanoffs."

"To the men and women of the American Labor movement and to all sincere friends of democracy and internationalism, we call for loyal support to America and her allies in this great struggle. Let us make our beloved republic strong and victorious for the sake of humanity, and thus insure for our children and their children, the priceless heritage of liberty and democracy. For us, at the same time, stand shoulder to shoulder in the fight against the foes of democracy within our own borders, resolved never to rest until the goal of democracy, industrial, political and international has been attained."
