

## Say It with Flowers

The increasing demand for flowers and plants at the Christmas season prove their popularity as a means of dispensing cheerfulness. Our stock this year is larger and better than ever.

Azaleas	\$1.50 to \$2
Begonias	50c to \$3
Ferns	25c to \$2
Xmas Cherries	15c to 50c

The ever popular Fern Fans 35c to \$2.50

As in previous year we will make deliveries Xmas Eve.

## The Sawell Greenhouses

### To the Farmer:

The purchase of a Piano or Victrola is only purchased invariably once in a lifetime. Therefore it behoves the purchaser to get the best and make sure you have the best.

I have had 25 years experience in tuning and repairing musical instruments, therefore feel quite confident I can choose the best instruments on the market.

I shall be pleased to place any instrument in your home beside any other in fair competition and let you yourself be the judge, without you feeling under any obligations absolutely. I can also save the purchaser quite a few dollars on account of my expenses being so low. I will always give you my best personal service and devote the whole of my time to supplying the country people. A postcard or telephone call will oblige.

Yours truly,

### How Winter Rhubarb is Produced.

In making a permanent business of rhubarb forcing, it is necessary, each year, to set out a new bed, as plants once forced are of no further value. In the spring large roots should be dug, split in one bud sections and replaced in rich moist ground. During the growing season they are kept cultivated and free from weeds. In the fall they are covered with manure. Next spring a second bed is planted as before. That fall a large part of the first bed is taken up, leaving sufficient to replant another bed the next spring. The roots are taken up the last thing in the fall before the hard freezing weather comes and are placed in piles in a shed where they can easily be got at during the winter but will remain frozen. About December 1st take in a sufficient number of roots, place these bud side up on the floor of a warm cellar—about 45° or 70°—and cover with an inch of sand. Be sure to fill in all interspaces. Keep this sand moist. About a week later the buds will begin to swell and in from four to six weeks, depending upon the heat of the room—the cooler the place the slower growth starts—you should have rhubarb ready for market. After these roots are exhausted throw them away and put in more. If a constant supply is required make a new bed every two or three weeks during the winter. Be sure to keep all light dimmed. Put burlap or brown paper over the windows to get the bright pink color so much desired.—A. H. MacLennan, Ontario Vegetable Specialist, Toronto.

### Unnecessary Loss Among Young Pigs.

On 75 Minnesota farms a total of 5,286 pigs were farrowed with an average of \$3.31 per litter. Of this number 9.21 per cent. were farrowed dead, 18.21 per cent. died before weaning, 68.30 per cent. were raised, and 31.70 per cent. of the original pig crop was lost. Improper feeding and lack of exercise by the brood sows during the winter were responsible for most of the trouble (unnecessary trouble) at farrowing time. Brood sows should be encouraged to get out and work every day. The droppings should be watched. If the sows are constipated, oilmeal or bran should be introduced into their ration until satisfactory condition results. For immediate action a reasonable dose of epsom salts should be given.

Arsenate of lead or paris green are good remedies to use against chewing insects. When paris green is used it is well to add an equal quantity of lime to prevent injury to the foliage.

Twenty Dollars a Day in Alaska. Miners employed in the Alaskan mines receive twenty dollars per day the year round.

A Russian inventor has developed a method of making felt boots and knit goods from dog hair.

## Here's Lighter Weight— Longer Wear—Better Value

Wearing rubbers all day is tiresome, but since rubbers are necessary, why not wear Ames Holden Rubber Footwear? Each pair combines the least weight with the longest possible wear.

This longer life is built into each pair with pure rubber, pressure cured, and extra strength where the wear comes. See the heavy ribbing under the laces. This is only one of the many special features that make it possible for us to back up the sweeping guarantee on every pair.

The men who design and make these shoes have been working out your footwear problems for years. Their knowledge of materials and rubber shoe-making makes Ames Holden Rubber Footwear the greatest value you can buy. Let us fit you with
