Buffalo, Aug. 7.—Local immigration officials have two important matters under consideration at the present time. One is the syndicate of the white slave traffickers which is being unearthed and which extends like a chain along the lake ports from Buffalo to Cleveland and Chicago.

While many arrive by way of Baltimore and New York, the largest percentage are coming in by way of Black Rock and Canada. Inspectors of Cleveland and Buffalo are startled at the extent to which the traffic is carried.

One inspector declared this morning, after a tour of investigation around Youngstown and Lewiston, that he found saloons infested with the men and women who lure young girls into the States. He stated that he could have arrested fully 200, but there were no jail accommodations for them here.

Another matter brought to the attention of the Government in this relation is the great need of a house of detention for the women who are arrested and held pending trial. The need of this was brought out in Buffalo when thirteen women were held for months in the penitentiary, not being able to furnish bail.

The Government provided a house of detention at Black Rock for the Chinese who were swaiting trial on the right to and were awaiting trial on the right to

It seems an absolute necessity that such a house of detention be provided for these girls, some of whom are innocent, and who should not have to bear the stigms of jail or penitentiary confinement.

These girls are mostly foreigners, unable to speak or understand English, ranging from 16 to 20 years of age. Immigration departments all over the country, as well as the local office, are overloaded with these white slave cases.

SUMMER CARE OF CHICKS. SUMMER CARE OF CHICKS.

Cleanliness in housing, regularity in feeding and freedom of range are very important in rearing chicks. A variety of wholesome feed should be supplied regularly.
