BAZAAB

IN AID OF Furnishing the New Temperance Hall.

(Under the Patronage of Lady Bannerman.) THE New Temperance Hall in this Town being nearly completed, it has become necessary to provide the requisite Funds for istably famishing the same. A Bazaar will therefore be held, for his purpose, in the said Building, on

Wednesday and Thursday,

The 16th and 17th days of December next.

The 16th and 17th days of December next. The projectors of this Bazaar desin it essential to the prosperity of the cause in which they are engaged, to render the Hall as comfor-table and attractive as possible—to make it at once a rallying point for the Sons and their friends, and a credit to the community. To accomplish this object, however, from the Fands of the averal Town Divisions, was found to be totally impracticable, without causing serious embarrassment thereto. An appeal to the liberality of the public has, therefore, been determined upon ; and it is hoped that these friends who feel disposed to further this object, but who have not yet commenced their labors, will do as without delay. Ladies can promote this object, not only by working for it themselves, but also by directing the attention of their firends towards it, and solici-ting their aid. ting their aid. The followi

PATENT ABTHFICIAL SLATE, And Unchangeable Metallic Paints;

PROOF AGAINST FIRE & WATER! Manufactured by the Patentee, in Colchester, Nova Scotia. Manufactured by the Patentee, in Colchester, Nova Scotia. The ARTIFICIAL SLATE is the product of a mixture of unineral substances known to be the best non-conductors of heat as well as the most indestructible the Chemical affinity of which con-vents the surface of materials covered, into a Coating of Actual State—Proof against FIRE and WATER. Thus the laws of nature are made to accomplish results as surprising as they are use-ful, by rendering Wooden fabries and consequently preventing decay and less pervices to moisture, and consequently preventing decay and destruction from corroding influences hitherto supposed unat-tainable.
