I waited for some moments that she might conquer her emotion, and then urged her to go on. Her pleading eyes that mine, and with a voice that faltered too much almost for utterance, she said "O mother, I cannot leave him all out; let me say, 'thank God that I had a dear father once!' so I can still go on, and keep him in my prayers." And so she always does, and my stricken heart learned a lesson from the loving ingenuity of my child. Remember to thank God for mercies past, as well as to ask blessings for the future. W.

Some years since, three Indians in the neighbourhood of Green Bay, became converts of temperance, although previ-ously surpassingly fond of the "brain Three white men formed the charitable resolution of trying to draw them back. Placing a canteen of whisky in their path, they hid themselves in the bushes to observe the effect. The first Indian recognized his old acquaintance with an "ugh!" and, making a high step passed on. The second laughed, saying "Me know you," and walked round. The last one drew his tomahawk and dashed it in pieces, saying, "Ugh! you conquer me, now I conquer you."

THE GOOD WIFE .- She commandeth her husband in any equal matter, by constantly obeying him. It was always observed that what the English gained of the French in battle by valour, the French regained of the English by cunning in treaties. So if the husband should chance by his power, in his passion, to prejudice his wife's right, she wisely oweth, by compounding and comply ing, to rectify it again.
She keeps home if she have not her

husband's company or leave for her patent to go abroad. For the house is the woman's centre.

Her clothes are rather comely than costly, and she makes plain cloth to be velvet by her handsome wearing it. She is none of our dainty dames, who love to appear in variety of suite every day new, as if a good gown, like a stratagem in war, were to be used but once.

Her husband's secret she will not divulge. Especially she is careful to conceal his infirmities. If he be none of the wisest, she so orders it that he appears on the public stage but seldom, and then he hath conned his part so well

that he comes off with great applause. In her husband's sickness she feels more grief than she shows. Partly that she may not dishearten him, and partly she is not at leisure to seem so sorrowful that she may be the more ser-

The heaviest work of her servants she maketh light by orderly and seasonable employing it. Wherefore her service is accounted a perferment, and her teaching better than her wages.

Tus Inish Ngoro.—A negro from Montserrat, or Marigalente, where the Hiberno Celtic is spoken by all classes, ed to be on the wharf at Philadelwhen a number of Irish emigrants were landed; and, seeming one of them with a wife and children, he stepped for-ward to assist the family on shore. The Irishman in his native tongue, expressed his surprise at the civility of the negro, who, understanding what had been said, replied in Irish, that he need not be astonished, for that he was a bit of an Irishmen, surprised at hearing a black man speak his Milesian dialect, it entered his mind, with the usual rapidity of Irish fauey, that he really was an Irishman, but that the climate had changed his complexion. "If I may be so bold, my dear honey," said he, "may I ask how long you have been in this country?" The negro, who had only come hither on a voyage, said he had been in Philadelphia only about four months. Poor Pat turned round to his wife and children and looking as if for the last time on their rosy cheeks, concluding that in four months they also must change their complexion, exclaimed. "Oh, merciful' powers; Biddy did you hear that? he has not been more than four months in this country, and he is already almost as black as jet." The Renowned Remedy! HOLLOWAY'S OINTMENT.

MOST ASTONISHING CURE OF SCROFULOUS ULCERS-A CASE CERTIFIED BY THE MAYOR OF BOSTON.

Copy of a Letter from J. Noble, Esq., Muyo Boston, Lincolnshire.

Boston, h. Lincolnshire.

To Professor Holloway.

Dear Sir, —Mrs. Sarah Dixon, of Liquorpond street, Boston, has this day deposed before me that for a considerable period she was severely afflicted with Scrofulous Sores and Ulcers in her arms, feet, legs, and other parts of her body; and although the Wirst of medical advice was obtained, at the cost of a large sum of money, she obtained no abatement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment, she procared a small pot, and a box of the Pille, and before that was all used, symptoms of amendment appeared. By persevering with the medicines for a short time longer, according to the directions, and strictly adhering to your rules, as to diet, &c., she was perfectly cured, and aow enjoys the best of health.

I remain, Dear Sir, yours truly, (Signad) J. NOBLE.

ERYSIPELAS IN THE LEG, AFTER MEDICAL AID HAD PAILED.

Copy of a Letter from Mrs. Elizabeth Yeates, of the Post Office, Aldwick Road, near Bognor, Sussex, dated January 12th, 1853.

To Professor Hollowar,

Sir,—I suffered for a considerable period from a severe attack of Erysipelas, which at length settled in my leg, and resisted all medical treatment. My sufferings were very great, and I quite despaired of any permanent amendment, when I was advised to have recourse to your Ointment and Pills. I did so without delay, and am happy to say the result was eminently successful, for they effected a radical care of my leg and restored me to the enjoyment of health. I shall ever speak with the atmost confidence of your medicines, and have recommended them to others in To Professor HOLLOWAY,

DREADFULLY DISEASED ANCLE CURED AFTER BEING GIVEN UP BY THE FACULTY, AT MALTA AND PORTSMOUTH HOSPITALS

The following important communication has been for warded to Professor Holloway for publication, b Mr. B. Dixon, Chemist, King-st., Norwich.

warded to Professor Holloway for publication, by Mr. B. Dixon, Chemist, King-sk., Norwich.

Copy of a Letter from Captain Smith, of Great Yarmouth, dated January 19th, 1853.

To Mr. Dixon,
Dear Sir,—I send you the particulars of a cure effected by Professor Holloway's invaluable medicines:—Mr. John Walton, late in Her Mujesty's Service, in the British Fleet at Malta, had a very bad ulcerated ancle, and after having been in the Malta Hospital for six months, was sent to England as an invalid to Portsmouth Hospital, where he remained an inmate four months, there, as at Malta, refésing to have the limb amputated, he was turned out incurable. He then came to Yarmouth, and was under a medical gentleman for about three months, but his ancle became so much worse that all hope was lost. At this period, by my advice, he tried Holloway's Ointment and Pills, which, by naremitted application, healed all the ulcers, and restored him to perfect health and strength.

I remain, Dear Sir, yours very truly, (Signed) JOHN SMITH.

SURPRISING CURE OF A BAD BREAST, NER-VOUS DEBILITY, AND GENERAL ILL HEALTH.

Copy of a Letter from Mr. T. F. Ker, Chemist, &c., Lower Moss-lane, Manchester, dated February 12th, 1863. To Professor HOLLOWAY,

To Professor Hollowary 12th, 1883.

To Professor Hollowary.

Dear Sir,—I have great pleasure in forwarding to you the particulars of a very extraordinary cure of a bad breast, effected colely by the use of your celebrated Oiatment and Pills. Mr. Martha Bell, of Pittstreet, in this town, had been for a considerable time laboring under nervous debility, loss of appetite, and general ill health, occasioned by alcerated wounds in the breast. Sha had had much experience in the use of all the known remedies for the cure of ulcers, but without any beneficial result; in fact he had nearly lost all faith and hope of a cure being effected. In this distressing and painful condition of body and mind, she was persuaded to have recourse to your invaluable Ointment and Pills, which she immediately did, and in the course of a very short time the effect produced was most astonishing; her appetite was speedily improved, and the sores and ulcers in the breast gradually healed, and the nervous excitement of her system was wholly removed.

I remain dear Sir, yours faithfully,

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for ar sterective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not cany to the produce and the produce a machine is acrimonious and irristing to the low-cles. This is not. Many of them produce so much priying pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowes. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been specifily queed by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languez and Loss of Appetite, Listlessness, Irritability, Billious Headacho. or sunnice, imagestion, Languer and Lose of Appetite, Lastlessness, irritability, Billous Headache.
