I saw Lake, Briar this afternoon, he child to her in a low voice, and the communication instantly banished the faint indoor from her check, and brought an alarmed look into her face.

Oh, Willie, did you? she anxiously whispared. 'He is in Dundee, then?' "And is he—is he seeking—for the land in he had the head him, it wisma an accident, as we imagined; it was design. He had gotten that very nicht after we cam' across in the boat, carin' nacfing ava what mich come o' him.

'He nasther kens nor wants tae ken.' Thank heaven, ejaculated the other, in tones betokening intense relief. 'But oh, Marah, was it no cruel and heartless o' him tae dae sie a thing' said Willie, with an expression of horror.

For a man tae dae that is dreadfu' beyond expression, but for a woman tae join him in it is mair than I could hae believed, if I ddun mind that the Bible says a mofeer may forget even her sookin' infant. Now Beekey Briar wasna just sae bad as that, for little Phil isna her ain bairn. Natholess, it was a cruel, cruel, hellish thing tae dae.'

'And, than's heaven it is a deed few are capable are committing,' rejoined Marah. 'But, do you know, Willie, I am glad—oh, beyond expression glad—that they did desert him, for it has the means of bringing him to me.

'And o' rescuing him fra a vagabond's life,' added Willie. 'That's true, Marah. Sae far as he knows or cares either, little Phil may hae dee' do' starvation, or he may be prowlin' about the street thievin' and stealing—'it' a' ane tae him.'

'The better so—a thousand times better so, 'said Marah. 'I ferrently hope that he may never see Phil again.'

'He wadna ken him if he did,'' responded Willie. 'Little Phil is asfe tae meet him ony where, for Luke wad ne'er recognise him in that bonnie bloomin', well-dressed laddie the misorable little walf that he deserted at the Toon Hall.'

General Debility, and for Purifying the Blood.

This Sarsaparilla is a combination of vegetable alteratives — Stillingia, Mandarake, Xellow Dock— with the Iodides of Potassium and Iron, and is the most efficacious imedicine yet known for the diseases it is intended to cure.

Its ingredients are so skilfully combined, that the full alterative-effect of each is assured, and while it is so mild as to be harmless even to children, it is still so effectual as to purge out from the system those impurities and corruptions which develop into loathsome disease.

The reputation it enjoys is derived from its cures, and the confidence which provident physicians all over the country repose in it, prove their experience of its usefulness.

Certificates attesting its virtues have 1377 TO PRACTICAL FARMERS. -THE---PROCKVILLE CHEMICAL

Certificates attesting its virtues have accumulated, and are constantly being received, and as many of these cases are publicly known, they furnish convincing evidence of the superiority of this Sarsaparilla over every other atterative medicine. So generally is its superiority to any other medicine known, that we need do no more than to assure the public that the best qualities it has ever possessed are strictly maintained. MANAGER. P. O.
