

32 YEARS AGO

Jacques Cartier, the famous discoverer, used the crude essences of roots and herbs to cure a skin disease which broke out amongst his crew.

TO-DAY

his descendant, Mr. J. Cartier of 2912 Clarke Street, Montreal, has been cured of eczema by essences of roots and herbs. These, however, instead of being crude as used by his ancestor, were prepared for modern use and put up in the form of Zam-Buk. Mr. Cartier, who is Justice of the Peace and Assistant Clerk of the Circuit Court of Montreal, says there is nothing that can compare with Zam-Buk for the treatment of skin diseases. He goes on:

"Allow me to express to you my gratitude for the benefit I derived from the use of Zam-Buk. It is the best remedy obtainable for eczema. I always keep it in the house as our family doctor; its healing and curative power is immense. I have no objection

MORE MEN AND MORE MUNITION.

LONDON, Oct. 4. General Sir William Robertson, Chief of the Imperial Staff at Army Headquarters, Lincolnshire. While the Allies are winning slowly, but surely, he wished to impress on his hearers the necessity of procuring more men for the Army and munition factories. In this connection, he said, he had a serious word of warning to give. We are not justified in expending to win the war, he said, unless the service of every man and woman in the country be utilized to the fullest extent. We must be under no delusion, he continued, as to the end or probable duration of the great struggle. We must be prepared to continue it for a time which cannot at present be estimated. In fact we must prepare for the worst, while we hope for the best. We have adopted in theory the principle of national service. We must see that we put it into practice, because we want more men and we want them now, and eventually we want all who can be spared.

Britain is in urgent need of men for the armies, and also for the munition factories. A statement to this effect was given out to-day by the Man Power Distribution Board, recently appointed to comb out eligible men for the army of the United Kingdom, who have not yet enrolled. The Board report that they had examined the Admiralty, War Office, Ministry of Munitions and other departments and that there was urgent need for fresh supplies of men for the armies and munition factories, in order to maintain our forces in the field, at the numbers already fixed for them, and at the same time to maintain the supply of munitions essential for equipment and proper utilization. The Board directed that no exemption be granted to certain classes heretofore exempt, and that there be a more general dilution of skilled labor on munitions with women and other workers, heretofore untrained. It suggested that conferences of employers and employees be held, with a view of freeing skilled labor now engaged in private works for employment on munitions plants. It is essential, the report says, that a large part of the labor now engaged in private work shall be diverted to the Government's orders, or released for the Army. The Board has under consideration the extended use of women and men over military age, and the release of men of military age now employed in Government offices. This is the only means, the Board says,

whereby exemptions from compulsory service can be avoided.

THE VERDICT.

LONDON, Oct. 4. Official evidence presented at the inquest into the death of the members of the German crew of the Zepplin which was destroyed at Potter's Bar on the night of Oct. 1st, showed that 19 bodies were recovered. The jury's verdict was that death had been caused by injuries received while travelling in a hostile airship which was brought down by the anti-aircraft organization.

GERMAN DEFENCES CAPTURED.

PARIS, Oct. 4. A strongly fortified line of German defences between Morval and St. Pierre Vaux Wood, on the Somme front, has been captured by the French, the War Office announced to-day. Two hundred prisoners were taken.

RUSSIAN DRIVE ON LEMBERG.

LONDON, Oct. 4. After three days of incessant and furious fighting the Russians are reported to have won a considerable advantage in their new drive on Lemberg from the south and to be threatening the important railroad town of Brzezany, 50 miles S.E. of Lemberg. Reuters' Petrograd correspondent says that the Russians, under cover of artillery fire, forced their way across the Zlota-Lipa River, south of Brzezany, driving the Austro-German forces from the heights. The Russian artillery then advanced and began a bombardment of the camps, military establishments and suburbs of the town.

ROMANIANS INVADE BULGARIA.

SOFIA, Oct. 4. The Romanians, who have crossed the Danube and invaded Bulgaria, are described as considerable units, of troops in an official statement issued by the War Office to-day, which, however, does not report any clash between Bulgarians and the invaders.

BUCHAREST, Oct. 4. Roumanians have inflicted further defeat on the Germans and Austrians in Transylvania, the war office announced to-day. Austro-German forces were defeated in an engagement in the region of Fogaras. Austro-German attempts near Odorik were repulsed, and the Roumanians took more than 1,200 prisoners.

TROUBLE IN THE REICHSSTAG.

BERLIN, Oct. 4. The campaign against Chancellor Von Bethmann-Hollweg is daily assuming more tangible form. One of the latest developments is a circular demanding retirement of the Chancellor, which has been sent by a vociferous group of his opponents to such members of the Reichstag as are con-

sidered open to their arguments. The indictment covers almost everything in the Chancellor's conduct of Foreign affairs before and during the war. Attacks are made in particular on his attempts to reach an agreement with England, his first attitude toward Belgian neutrality, and naturally his policy in the submarine issue. Another factor is the truce proclaimed at the outset of the war which had been made by the Saxons. Socialists. This faction has determined to run a candidate for the seat in the Reichstag vacated by the death of the Conservative, Eduard Gans. This determination violates the general agreement between the political parties that vacant seats shall be resigned without contest to the party holding them at the outset of the war. Meanwhile the Chancellor and the Reichstag leaders continue to discuss the points at issue behind closed doors. The discussion is being conducted on even a more confidential basis than before. It is no longer held before the full committee on ways and means to which all members of the Reichstag are admitted as auditors, but in a smaller select committee of party leaders who are specially bound to secrecy. Such scraps as leak out say that while the antagonism between the Chancellor and his opponents has not disappeared, the discussion is now being conducted on the basis of reason and not of passion. It is believed that there is a good prospect that an agreement will be reached which will avoid the open discussion of issue before the Reichstag.

THE NEXT PREMIER.

TOKIO, Oct. 4. In well informed circles it is believed that Lieut. General Count Seiki Terauchi is the most likely choice for Premier.

"He Did His Bit."

By the Sagona, which sailed for the Labrador Tuesday afternoon, there left for his home at Cartwright, Wilfred Swaffield. This young man arrived here about a year ago to enlist with the Nrd. Regiment. Having passed his medical examination he entered upon his duties. During the winter he contracted a heavy cold which developed into pleuro-pneumonia. After treatment by an Army doctor he pulled through a very serious illness which left him in a weak state for some time and subsequently was given three months' leave to visit his home, whereby it was thought he would regain his health and that he would report fit for service. On again reporting to Headquarters he failed to pass, and he therefore asked for his discharge, which was granted. Mr. Swaffield is greatly disappointed in not being able to serve his King and Country and it was with great reluctance that he substituted the civilian clothes for the khaki. His case is another fine example of patriotism.

Sept. 30th. From J. F. Williams, (Bay Bulls South Head to Long Pt.).—Sixteen dories and skiffs and 31 motor boats are fishing and the catch to date is 10,635 qtls. with 100 for last week. Prospects are fairly good and there is enough squid for bait.
Sept. 30th. From R. Scott, (Hare Bay to Wild Cove Point).—About 150 dories and skiffs are fishing but bait is not plentiful and prospects are very poor. The total catch is 5,095 qtls. and for last week 300.

Certain members of the house-party were describing the accidents that had happened to them during their respective careers. Adventures by flood, fire, and field had all been well recalled, and Mr. Brown, eager for fame, thought it was his turn. "D'you know," he said, "I had a very painful experience once. I ran a confounded splinter quite half an inch long right under my finger-nail, don't you know?" "Really, Mr. Brown," said a maiden of the party; "how did you do it?" "Well," he said, "it happened like this. As he spoke he unconsciously raised his hand and scratched his forehead. "Oh, I see," she interrupted, sweetly; "how very careless of you!"—Tit-Bits.

Why People feel Depressed In the Cold Weather

Why is tiredness and languor so prevalent just now? A physician explained that the cold of winter drives blood from the surface of the body to the liver. Normally one-fourth of the whole blood supply is in the liver, and when more blood is accumulated in that organ everything goes wrong. No better remedy exists than Dr. Hamilton's Pills which are composed of such vegetable extracts as Mandrake and Butternut, and possess wonderful liver stimulating powers. It's a marvel the way Hamilton's Pills clear the blood of the poisonous humors. They put new life into worn out bodies, build up the appetite, bring back a reserve of nerve energy, tide folks over the cold days of winter and the depressing days of spring. For your health and body comfort get a 25c. box of Dr. Hamilton's Pills to-day.
