CUTTING TEETH. Cutting teeth is a pastime which

babies indulge in, in order to prevent their parents from oversleeping. The average baby is born with stall oom for several teeth, no two of which sprout at the same time. On the imaginative people can see the be very full, measuringng three or the contrary, they drift into place one by one, instead of coming up in ser-In spite of many attempts made to ried ranks, like the asparagus or the In spite of many attempts made to launch the bustle, it seems not to launch the bustle, it seems not to meet with favor.

The ranks, like the asparagus or the long-waisted radish. We have some bright men in the medical profession with fish! It is the patriotic dish, and neet with favor.

Auburn-haired women should rebeen able to correct this evil, which been able to correct this evil, which wise from eating trout we'll know too wise from eating trout we'll know too ting back the dial of progress more or rainy. Through all the brooks and than two inches and a half.

When a baby begins to cut his first fact who is not stone deaf in both ear lobes. There is something about the loud, determined accents of a force to beat the band, my intellect is baby which is Cutting Teeth that pre-sailing, my intellect that once was tone of voice used by them during the ing swine and cattle; and as I chew a

which succeeds a full meal. As an experienced and heavily loaded father, we would also like to A Good All Round ask why it is that babies never cut any teeth in the day time. It is a harrowing sight to note the change which comes over a sweet infant who has not uttered a cross word all day, just as soon as the parents settle. just as soon as the parents settle down for the night in curl papers and other regalia.
