### MR. McINNES' INSULT TO ORGANIZED LABOR

Report of His Remarks at Rossland is Amply Corroborated by People Who Listened to His Speech -Damage to Liberal Cause

night.'

Rossland, Jan. 22.—W. W. B. Mc-Innes' denunciation of organized labor and his declaration that the Liberals do not want the votes or support of the Laborists and Socialists in his Labor party. His object in doing so spirited speech at Miners' union hall is beyond my comprehension. He has on Saturday night, continue to be the topic of the hour. It has done more to ensure the defeat of J. A. Macdon-to ensure the defeat of J. A. Macdon-shall deal with the same matter more shall be a shall refer to his undeserved censure at the Macdonald meeting to morrow ald in Rossland than a month's hard campaigning by his opponents. Aspaigning by his opponents. As-Liberals are enraged over the bad break of Mr. McInnes, and armaking futile attempts to divert the

Eighteen Japanese Rescued From the eighteen were without other food than an occasional grain of rice when picked up. Two days before the Tydeus came a steamer had been seen inbound but a steamer had been seen inbound but The secretary, Mrs. Elliott Rowe, gave was too far distant to be attracted to the following report of the year's work: with eighteen shipwrecked Japan- abandoned hope when this vessel Secretary's Report. In presenting a report of the work of this association I find little ese on board, taken from the sinking passed, some throwing themselves on schooner Kayama Mary 149 tone on the deck to weep when the hull dipp-

ese on board, taken from the sinking schooner Kayama Maru, 149 tons, on the afternoon of December 10th, in 33 north latitude 147 east longitude, about 200 miles off the Japanese coast, the Blue Funnel liner Tydeus, capt. Campbell, reached port from Liverpool via the Suez, Straits Settlements and Chinese and Japanese company to the sinking to expain, Uyegach of the Japanese captain, Uyegach of the Japanese company.

PARLIAMENTARY SESSION and was insured in a Japanese haori, had been without food and water for ten days, living on a few grains of rice garnered from the hull of the derelict schooner; and all were emaciated and suffering from starvation when brought on board the Lioyd's code signals were flown to signal: "We want food and water." A sampan hung in the dayits at the stern similar to the sternboat of a sealer, and Capt. Campbell hoisted a signal to say: "Send a boat for supples." Meanwhile the Tydeus have to. No sooner was she stopped than the sampan was lowered away and all hands began piling bundles, wicker in the sum and the usual supples." Meanwhile the Tydeus and was signaled to say: "Send a boat for supples." Meanwhile the Tydeus have to. No sooner was she stopped than the sampan was lowered away and all hands began piling bundles, wicker in the sum and the sampan was lowered away and all hands began piling bundles, wicker in the sum and the sum and the sum and the sampan was lowered away and all hands began piling bundles, wicker in the sum and the sum a

to. No sooner was she stopped than the sampan was lowered away and all hands began piling bundles, wicker baskets, and tumbled over the schooner's side.

After lifting from wave to wave with the long sweeps working from the stern after the manner of Japanase boatmen the sampan' was brought alongside and one of the Tysampan was lowered away and all tackled the tariff today, being en-

ansee boatmen the sampan was brought alongside and one of the Tydous crew who spoke Japanese shouted to the shipwrecked men to come and get some mats or rice and casks of water; but Capt. Uyegaki wanted to come on board with his men. Fearing delay at quarantine, Capt. Campbell was more anxious that the captain sail his vessel back to Japan if she was sufficiently seaworthy, and she was sufficiently seaworthy, and show the item to stand until further representations are heard.

At the Liberal caucus today it was announced that there will be no general election for at least 18 months. If assurance to this effect is given to Mr. Borden, it will materially shorten the session.

The new senators, Beith, Gillmor Secretary.

tain sail his vessel back to Japan it the session. She was sufficiently seaworthy, and lowered mats of rice, etc., at the same and Comeau, were introduced today.

The grippe is not, as many people think, a comparatively new thing. Dr. Osler, in one of his works, states that it has been known for several centuries. There were epidemics in 1833 The Hague, Jan. 22.—The tidal wave which devastated some of the winter of 1889 that it attracted unibute batter of 1889 that it attracted unibute at the winter of 1889 that it attracted unibute at the winter of 1889 that it attracted unibute at the winter of 1889 that it attracted unibute with t the American continent was affected, clothes.

and since then the epidemics have The cause of the disease is more or less of a mystery. "Some claim," says Dr. Osler, "that it is due to a miasmatic material in the atmospher but others think, and with good but others think, and with good grounds, that it is due to some virus

of intense effectiveness"—which, being translated into ordinary phraseology, means that the disease is probably caused by a microbe, and is ex-"Regarding the symptoms, Dr. Osler says that "the oryza is usually inef-fective or absent." This sounds bad. Probably the majority of the suffer-

nervous manifestation at the outset, the headache, pain in the legs and back, and a general soreness, as if bruised or beaten." This is a symptom which were supported by the support of the public at 2:30 o'cl terday afternoon. It had be to be the support of bruised or beaten." This is a symptom which everyone has experienced. Dr. Osler mentions a most herrid and formidable list of complications which may follow the disease. Among them he enumerates nenhritis, emthem he enumerates nephritis, empyoema, lobar and lobular pneumofila, meningitis, abscesses on the brain, mental derangement, and others fair open. whose names are too weird and won-derful to be even read with equanimity by the average layman. He comforts sufferers, however, by assurance that the disease is sel-

dom fatal, if proper precautions are ties, and after a hard taken. He also mentions that "defer-vescence is usually by tylysis." a fact The Schools Affected

The city schools are suffering severely from the ravages of the dread-ed disease that is now going its open till Saturday the attendance has been considerably reduced through the illness of the pupils. With eight of the regular teachers away and others feeling far from well, the situation is anything but pleasant. from well, the situation is anything but pleasant. At the South Park school one of the regular teachers is off, while her assistant has also had retire, and two of the other teachers stay at work only through sheer determination. At the Boys' Central, determination. At the Boys' Central, tion has arisen in connection with the Principal Deane and one of his assist-local herring industry. A large number of the principal Deane and one of his assist-"Dover powder, 10 grains; Phenacetin, 5 grains."

"There," said a well known local physician to the Colonist yesterday, With all these teachers. Two while one is absent from Victoria while one is a victor "is a prescription that will knock out West. With all these teachers off, excessive has been the fishing that it is impossible to find substitutes, a small school of herring is today and already several classes have had in the harbor, and the Japs and the same of the same

it. ally getting smaller, and every day the sees additional absentees.

On the last outward steamer for the Orient, Dr. Milne, immigration oftion of the world to the disease, have ficer, deported a Chinese, who, while Great Many Wooden Sidewalks there been so many cases in Viotoria sane on other subjects, was insane in as there are at present," said Dr. this respect—he had an hallucination Ernest Hall to the Colonist yester—that a Miss Taylor of Cranbrook was The Casco, a small clipper built as a private yacht, was brought to Victoria in 1892, and entered the sealing bustines, and that of other doctors, I should imagine that fully one-fifth of ness, being later acquired by the Victoria Sealing company. The schooner was used by the late Robert Louis Stevenson in his South Sea cruises toria Sealing company. The schooner will deconvood and coal deconvoor and coal deconvoor

SUGGESTION ENDORSED

So far we have only had one fatality, and as a rule the after effects are not very bad. The danger in la grippe lies in the possibilities of an attack of pneumonia, and in our climate it is possible to take the proper precautions against this. What the present epidemic lacks in quality, and the present epidemic lacks in qual

convention of Pacific Coast advertising men, where I am to read a paper on 'The Cash Value of Climate and Scenery when Advertised.'

F. A. Pauline, vice-president of the Board of Trade, spoke also in favor of the suggestion made by the Colonist. While he could not speak for the board, he felt personally that the suggestion was a good one, and one that should be acted upon. He had no doubt but that the board would assist in carrying out such action. Other prominent business men spoke of the works of local improver Other prominent business men spoke of the works of
