to the fact that Canada had been a refuge for the slaves.

But I wish particularly to speak of a sermon preached by him while the late civil war was in progress. I happened to spend a Sunday in New York, after having witnessed the results of the horrible battle of Fredericksburg. At that time there was no love for England, or anything appertaining to her, among Americans. But on this occasion Mr. Beecher spoke of Canada in terms that made my heart thrill. I am sorry I have not at hand the means to support my statements; but if necessary I can show that Henry Ward Beecher was a warm friend of Canada.

The Government will Investigate.
London, March 9. The question will be raised in Parliament why the Government should not prosecute the dismissed draughts man Tetry for breach of trust.
Lord George Hamilton, First Lord of the Admiralty, will te asked to-morrow whether Tenry was bound by oath to keep the dockyard secrets and whether he can be indicted for perjury. The Admiralty authorities are known to be unwilling to prosecute, fearing further revelations and desiring to effect changes in the department as quietly as possible.

Officials state there is not a title of evidence connecting the American legation with the scandal. Terry says he gave the information to a friend, who gave it to another person, and he supposes that through the intert the information reached America. No paper endorses or even notices the Daily Telegraph's tirade. The general feeling is that the American legation is absolutely above suspicion.

AN OHIO TRAGEDY.

A Desperate Springfield Lover Commits Murder and Suicide.

Springfield, Ohio, March 9.—A shocking tragedy occurred last night on Pleasant-street, whereby Samuel Bowser, aged about 40, shot and killed Dora Jude, 18 years of age, who had rejected him, and then shot himself or was shot. The affair occurred in the parlor of the girl's home. Miss Jude was sitting in a chair and Bowser standing beside her. He suddenly drew a revolver, saying, "if you will not marry me you shall not marry any man." and fired. The HUNG UP BY HICKMAN.

A "Sugar" Transaction Which Cost Bos Men \$30,000 to \$50,000.

Boston, March 9.—William C. Hickman originally of Philadelphia, but lately of Boston, has joined the American colony in Canada, after having, it is alleged, swindled Boston Hickman claimed to have a formula for manufacturing an article that he called "sugarine," facturing an article that he called "sugarine," out of common starch. The sugarine was to take the place of ordinary sugar, to which it was equal in all respects. According to Hickman's story, the sugarine could be made for 1½ cents per pound, and sold readily for 5½. Several capitalists became interested, and furnished considerable sums of money which, it is said, Hickman perverted to his own use. When he found he could no longer blindfold his dupes, he left the city for Montreal, where he now is. He makes no secret of his whereabouts. Hickman is said to be very well connected in Philadelphia.

Toronte was congratulated on the passage of the Fleming Bylaw, and regret was expressed that all recent appointments to the Senate were men "notoriously opposed to temperance and prohibition." constabulary is needed. Herjury is very general.

East Middlesex—There is a good magistrate and everything is in good working order. The temperance people are working hard.

West Middlesex—Because of efforts to enforce the Scott Act the liquor men have smashed windows and shot bullets into private houses. The prosecution has not failed in a single liquor case, and the inspector is doing well.

Simcoe—The act was fairly well enforced for the first six months, but since then there has been great dissatisfaction, especially with the inspector in the west of the county.

The discussion of the evening was on this resolution offered by Mr. G. M. Rose, who wanted to have the feeling of the convention on the compensation question tested, and who spoke strongly in its favor:

That this Branch Allance request the Dominion Allance to petition the Dominion Government to provide in its estimates for 1837 a sum sufficient to buy out the plant, etc., now in use by distillers and brewers in Ganada, with the view of putting an end forever to the liquor traffe in our country.
