Savec With the Native Product—Dak ters that Attend Mining in Ontarie. APORTH, Nov. 2.—The work of the Comon in the east concluded with a visit to amworth iron deposit and to the Napance quarry and cement works. In reference quarry and cement works. In reference e former iron was first discovered on the crty about seven years ago by Mr. Wager, owner. Some work was done by him, her operations were carried on by the three and Tamworth Railway Company. Inthe work has been carried on by some ricans from the Lake Superior district.

market shey could mark the remarket or a new market opened up. The salt from this district to the dispontinued in Canada, either English salt can be shipped from Montreal yest for quarter the cost of the duty on coal would assist to some extent, but in the spinion of the witnesses, if the industry is not to be dispontinued in Canada, either English salt market opened up. The salt from this district is very pure, 96 per cent, and manufacturers are confident that with an open Americaan market they could more than hold their own.

With the rev. gentleman as caretaker, the institution by skilful manupulation may still pass for a seminary, until the next archbishop to pass for a seminary, until the next archbishop to pass for a seminary, until the next archbishop to pass for a seminary, until the next archbishop to pass for a seminary, until the next archbishop to pass for a seminary, until the next archbishop to pass for a seminary, until the next archbishop to pass for a seminary, until the next archbishop to pass for a seminary, until the next archbishop to pass for a seminary, until the next archbishop to pass for a seminary, until the next archbishop to pass for a seminary, until the next archbishop to pass for a seminary, until the next archbishop to pass for a seminary, until the next archbishop to pass for a seminary, until the next archbishop to pass for a seminary, until the next archbishop to pass for a seminary, until the next archbishop to the ent arch to enter institution by skilful many may make to ne in reality. I sincerely hope that Mr. Anglin's very eache reasoning may have little or ne effect on the real state of the ane. The fact stands to oprominently for ward and no amount of verbal paint or political cosmetics can conceal it.

St. John's Grove is not and never was a seminary. Therefore let it be assessed. According to Mr. Anglin himself it is only a seminary. Therefore let it be assessed. According to Mr. Anglin himself it is only a regular to pass for a seminary, until the next archbishop tak

England, Germany, Austria, Scotland and Canada, appeting for your choice as to an overcost. The may & Navy stores show overcosts for boys and men on all these sountries, and the result is you can get a very finest overcost which can be made, or the eapest overcost which can be and of the deapest overcost which can be a down the world. An ormous spock of overcosts at the Army & Navy, ake a look before you buy elsewhere.

Commany Massey & Co's Bawelston of Cod Liver Oil with Fepsian and Quisine, is reegy fixed at the best properation known, Prostless in the Section Psychetans. W. According to the Section Psychetans with the exception of a new line between Toronto, Hamilton and London, to be worked on the long-distance system, the Bell Telephone Company has nearly completed an unusually heavy season's work in the way of extensions to the system, and the officers report having used this year, in the Ontario Department slone, over 13,000 poles, and 1800 miles of wire, most of which is copper. The principal new lines built were from Toronto to Arthur via Orangeville; Orillia to Waubaushene, and Barrie to Midland and Penetanguishene; Owen Sound to Hanover; Wingham to Kincardine; Teeswater to London via Wingham, Clinton and Jucch, with branch to Parkhill; and in the Province of Quebec, Montreal to Three Rivers, Additional wires have also been put up tween Toronto and Oshawa; Berlin and Stratford; and Listowel and Harriston; and the following new exchanges and agencies opened, ize in Ontario: Alisa Craig, Bolton, Caledon, Ohesley, Coldwater, Elmvale, Elmwood, Exeter, Fesserton, Grand Valley, Lucan, Luckhow, Parkhill, Phelpston, Tara, Teeswater, Tottenham, and Woodbridge; and in Quebec; Bedford Berthier, Charlemagne, Dorval, Joligta, Knowlton, L'Assomption, Louisville, Stanbridge East, Stanhope, and Valois. Connecting offices have also been opened at Centreville, Oroydon, Grafoon, Kingston Mills and Roblin in Outario.

The Queen's Own, the Grenaders and the Body was a make the Army & Navy stores headquarters

The Queen's Own, the Grenadiers and the Body Suards make the Army & Navy stores headquarters for clothing. Genuine, well-made reliable, ready-made clothing is what the people want, and they get what they want at the Army & Navy stores. Do not continue purchasing shoddy clothing when it will cost for ho more to buy genuine goods if you go direct to the Army & Navy stores.

50 apidly does lung irritation spread and deepen, that often in a few weeks a simple cough culminates in tubercular consumption. The best to a cough, there is always danger in delay, get a bottle of Bickle's Anti-Consumptive Syrup, and cure yourself. It is a medicine unsurpassed for all throat and lung troubles. It soompounded from several heros, each one of which stands at the head of the list as exerting a wonderful influence in curing consumption and all lung diseases.

The Empress Frederick's Purchase.

From The London World.

The Empress Frederick has, I hear, purchased the Villa Reiss, at Oronberg, in the Taunus, for £25,000. Cronberg is a pretty little town near Konigstein, and lies in the most beautiful part of the Taunus country, amid woods and bills. The Villa Reiss is a fine house and stands in extensive grounds. It is rumored that the Enpress intends the place to be the residence of her second daugnter, Princess Victoria, after her marriage with Frince Alexander of Battenberg.

Saubbed by Mrs. Cleveland—this could never happen to a man dreased in one of the Array and Navy's ren dollar Scotel, sweet suits. What a stock of suits to choose from ast the Array and Navy's frond heavy condenselves. The clothing is then every dollar up to the Array and Navy is right to self to text, but the Array and Navy is right to self to text, but the Array and Array and Jiavy is the place to go to. Over hely partenate to select from—in truth, the Army and Navy is reasoned.

seminary of learning and Rev. Father McBride no more nor less than a lodger." If the building be only a lodging-house, according to the reasoning of this new legal luminary, I do not see why Baron Baxter was not competent to adjudge the case. But, sir, I have lived for some years. for some years in close proximity to this much-boasted institution, and I assert with-out fear of contradiction that in no sense has

this building been ever a seminary. On the contrary, it has been neither more nor less than a very cosy residence wherein the late deceased prolate was wont to receive his friends, political or otherwise.

A downcast looking youth with classical aspirations might have been generally found in attendance on the door, but I have been told in a tendance on the door, but I have been told in a tendance on the door, but I have been told in our very good authority that these longings mever went beyond the conjugation of the preterite tense of "Anno." In effect, some I little time was usually required before the bewildered door keeper reached this very grave and sarious portion of lating rammar.

The present owners acquired it about two years are, but for many years prior to that the former owners quarried large quantities of the sone, which they used in the manufacture of bydraulic cement. The Rathbun Company have exceted a fine stone mill, where the stone is ground and manufactured into cement.

This sement is of about the same quality as she well-known Thorold cement. It sets as hard but more slowly than Portland. The demand is at present very limited, but it is expected that a large amount will be used to connection with the porous terra cotta, for which it is much better adapted than common mortar.

The remaining work of the Commission will be confined to the salt and petroleum districts of Western Ontario. This may therefore be a convenient opportunity to call attention to a serious danger that exists and which demands early action on the part of those whose provinges it is to deal with such matters.

At present is many places in Ontario mining to carried on in the most crude manner. Often in following the ven was masses of rocks are left overhanging without timbering or protection of any kind to prevent them rolling down and crushing or burying those working follow. These immense masses of rocks are left overhanging without timbering or protection of any kind to prevent them rolling down and crushing or burying those working follow. These immense masses of rocks are left overhanging without timbering or protection of any kind to prevent them deceased prelate was wont to receive his friends, political or otherwise.

ddistion to being undermined, shaken by the constant explosions of dynamite, and are thus use more liable to be affected by the disingrating action of frost and the working of aleer.

This is not an imaginary danger, but is one which has come under the observation of the riter on more than one occasion while travelage with the commissioners this summer. It has not an imaginary danger, but is one which has come under the observation of the riter on more than one occasion while travelage with the commissioners this summer. It has been thrown to some kind of a Cerberus. It is to be hoped that the near future. The assertion of the learned counsel that the Rev. McBride is but a "lodger" will scarcely bear examination. I myself was present at the services where the late Archbishop, having very predentiv reserved to himself the authority of parsent presents of the summer than the some interest of the services where the late Archbishop, having very predentiv reserved to himself the authority of parsent presents of ore or rock. In some interest in the case understant of the services where the late Archbishop, having very predentiv reserved to himself the authority of parsent presents of the same interest of the services where the late Archbishop, having very predentiv reserved to himself the authority of parsent presents of the services where the late Archbishop, having very predentiv reserved to himself the authority of parsent presents of the services where the late Archbishop, having very predentiv reserved to himself the authority of parsent presents of the services where the late Archbishop, having very predentiv reserved to himself the authority of parsent presents of the services where the late Archbishop, having very predentiv reserved to himself the authority of parsents of the authority of parsents of the services where the late Archbishop, having very predentiv reserved to himself the authority of parsent presents of the services where the late Archbishop, having very predentive reserved to himself the author

REPORT ACCOMPANYING THE MEDAL.

PARTIES.

Excess of praise is hardly possible when speaking of this new and superbly beautiful design, which is intended to meet the demand for a mage expensive exterior or cabinet, together with a most superb action. This organ is of most substantial and pleasing propertions, and of a style of finish suitable for any situation. In pleasing balance of propertions, practical utility of form, richness of ornamentation and deligns of finish this instruments. unity of form, richness of ornamentation and delicary of finish, this instrument will not only compare favorably with the best but surpass all organs of any make; while for strength and purity of tone, variety of expression and freedom of action EWING & CO., it is far in advance of anything yet produced.

> Society Science, Letters and Art, London, Hug. REV. IRWIN COATES, M.A., Hon. Sec. This certainly shows that the Musical Bachelors and Doctors of Oxford and Cambridge Universities know

something about an organ. Warerooms: 32 KING-ST. W.

PIANOS. PIANOS.

The Musical Opinion and Music Trade Review, published in London, Eng. April 1, 1887, under the heading CANADIAN MUSICAL EXHIBITS AT THE COLINDIES EXHIBITION, has the following:

Referring to Pisno Fortes of Mesers, Heintzman & Co., Dr. Stainer says as follows: "I much regret that, owing to the late period at which I was called upon to make a report, all the more important instruments exhibited by this firm HAD BEEN SOLD AND REMOVED. But those remaining fully justified their high reputation. An Upright Grand, which I examined was in every respect a fine instrument; the touch was sympathetic and had a good repetition; the tone was full and rich. I also tried a specimen style No. 9, which was equally deserving of unqualified praise."
