TUESDAY MORNING, MAY 7, 1889,

Blatherskite Pensioners.

Mr. Mowat will have to shoulder the responsibility of Blatherskite O'Donoghue and his efforts to prevent immigration to Oatarie.

O'Donoghue has been a pensioner on the province for years and years and in that time has drawn not less than \$10,000 of the people's money, whose generosity he requites by doing his best to keep Englishmen and Scotchmen from coming into Ontario. He pretends to do this in the interest of the workingmen. But all the workingman there is about O'Donoghue is that he has lived on the class he pretends to belong to and the province for years and years.

In there, neatly arranged in eyening dress and with faces so well blacked that their best friends did not know them.

The first purt consisted of some good minstrol work in which were introduced some capital local hits and a heap of tuny business. There was Lett. W. J. Nelson as interlocutor with these men as endsmen: Bones, F. Bain, G. Highibotham, W. Beach, W. Stewart, Tambos, W. E. Ramsay, C. Ross, C. Bogert, J. Drynan.

If Mr. Mowat needs a precedent for padocking this blatherskite pensioner we give him the following one:

James E. Boustead is a good Reformer, well-known alderman of the city and a creditable and successful chairman of the committee trolling the city waterworks. Not many lays ago a bylaw was put to the citizens ays ago a bylaw was put to the citizens anctioning debentures to a large amount for approximates in the water system. The colicy of the committee and the entire administration of the waterworks department was to arry the bylaw. One employe of the department, however, went about the city canvassiant, however, went about the city canvassiant. policy of the committee and the entire admining against the bylaw. He set himself detely to oppose the policy of the administration of the department. He was pulled up by Mr. Boustead in proper order. He was told that as long as he was a servant of the department be was bound to do all he could in carrying out the policy that department; that he must keep his mouth shut as far as criticising that policy; and that while he might use his vote as he saw fit his tongue was tied. The man "saw the point" and subsided. Mr. Boustead was right. Men do not pay employes to oppose their business nor to talk against them; but to push

heir business and stick up for them.

But while it is the policy of Ontario to endollars, Blatherskite O'Donoghue, a pensioner his official and other hours to prevent people coming here!

Mr. Mowat, now that the facts are thus prought home to you, and a good precedent supplied you, it is your duty to suppress this blatherskite pensioner on the bounty of On-tario. By the by, Mr. Mowat, can you tell us what O'Donoghue does for the money he draws

That Toronto yants such a hotel is admitted by all. Mr. Van Horne of the C.P.R., who ought to be considered a good judge, predicts that Toronto will have a population of a million in a very few years, afid he is carrying out his railway policy in regard to the city on such expectations. But, admit that Mr. Van Horne of the size on such expectations. But, admit John Hay, an employe in P. W. the most profitable enterprises in the sister city. New York is putting up big hotels year after year, and they are all filled and all make money.

One gentleman said to The World yesterday: I know at least three of my friends who would be quite willing to put \$1000 each in any plan to get the movement under way. The hotel does not need to be all built at once: the ground has to be got and one of the chief wings erected; then the rest will follow as called for. The Windsor was not completed when opened.

completed when opened.

Nothing will pay Toronto so well as a big up town hotel, and we are confident that the owners of such an hotel would also find it profitable.

Is the Cure Permanent?

Mr. Doyle is the next to testify: My catarrh had reached my lungs, and I had all the symptoms of approaching consumption, such as constant hawking, spitting and discharge from the throat and nose, which, during the night, dropped into the tubes of the lungs and there deposited the poisonous matter, laying the sure foundation for future trouble. The pain across the chest gave me additional alarm, and I immediately placed my case under the professional attention of specialists for my disease, and the result has been very gratifying for me. The above symptoms have not only been removed, but they also cured me of dyspepsia. The cough which I had for two years, has disappeared, also that worn out feeling and pains through the lungs; my pulse was over one hundred, and now to know that I am cured, I feel it a duty to the public to state that no symptom has returned for over three years, and I feel that I am cured permanently. Is the Cure Permanent?
