

The Weekly Monitor.

WEDNESDAY, MARCH 19th, 1890.

Notes on a Trip to Digby County.

Leaving Marshtown with regret, after a very pleasant visit, we went out by back to Digby with a view to examine the records in the possession of the worthy rector of the parish, the Rev. John Ambrose, D. D. Through his kindness we spent the greater part of a day in making notes from these interesting records from which we gleaned many facts that were of interest to us. The first Christian sermon delivered in Digby was preached by the Rev. Edward Rudenell, of the English church, chaplain to the ship of war that brought the United Empire Loyalists to this shore in 1784. The hillside on which Digby was built was then a wilderness, and it was in the midst of this recently broken forest that a number of the new settlers came to them to this first gospel effort made among them, and it was only a year or two later that the first Sunday school in America was organized by Lieutenant James Freeman, a loyal immigrant, and we think it not a just tribute to him to say that he was the true founder of Sunday schools not only in America, but in the world. Raikes, of Bristol, has long had given to him an honor which he believes belongs to him. It is certain that the latter converted the children of the inhabitants with a view to giving religious instruction only, while the former paid an old woman twenty-five cents per head for all the children she could gather at her home on Sundays to teach them needle work and the elements of reading, etc. Honor to whom honor is due. Leaving Digby we followed as nearly as we could the track of the Digby and Annapolis railway to Ropes Point and Smith's Cove. We found men, at intervals, all along this section of the line, some being employed in dressing granite to be used in culverts, some in pile-driving and others in grading the roadway. Much work yet remains to be done, but it is not impossible that the road may be completed in the approaching autumn. We halted a day or two at Smith's Cove, which lies immediately west of the mouth of Bear River, and which is a delightfully situated village, and very pleasant in the summer season. At this place the Baptists have lately erected a house of worship which reflects great credit upon them. The building is of two stories, with a neat porch and a well painted. In the basement is a neat and commodious room, which is used for a Sunday school, lecture, and prayer-meeting room. It is provided with furnace, and has the room above, and also a store which enables them to heat the school room from the upper room is not to be despised. The auditorium, or preaching room, in the upper story is neatly finished and covered in hardwood, and is supplied with a good reorgan, which with the aid of a well-trained choir supplies the congregation with excellent music. The Methodists have also a house of worship here, and in a still smaller building the Adventists sometimes meet for worship. While we were at this place we were the guest of Mr. J. S. Thomas, whose wife was a Hawthorne, and a great-granddaughter of Adam Wakefield, a great Yorkshire, England, who with his wife Elizabeth Wedgwood, migrated thence to this country in 1774. It was here that they were favored in seeing a Bible, which was printed in England in the year 1602—just eleven years before the first edition of our authorized version was printed, and is the oldest English translation we have met with. It contained a record of the Easton and Hawthorne families, which were connected by the marriage of the father of our immigrant Hawthorne with a daughter of the Mr. Easton who once owned this Bible. These records were copied by us for future use. During a call on Edward Potter, Esq., who resides in the village, we had our attention called to a new style of coffin manufactured by him, which manufacture he has protected by taking out patent rights. Of these we wish to make mention. These coffins consist of a usual inner casket of wood, and an outer or external covering consisting of a sort of concrete, of which sand and Portland cement are the chief ingredients. Besides this covering, which is about an inch in thickness, is impervious to water, and in consequence it seems to us that the bodies of the dead which, if enclosed in such coffins, be preserved intact indefinitely. Besides this merit it has another—that of being cheaper than ordinary wooden coffins. We were informed that Mr. Potter is prepared to sell rights to manufacturers of cement caskets to those who may desire to buy. Like most other new inventions it may take considerable time to convince the public of their value, but we believe the time will come, and that in many years, when the use and value of these coffins will be acknowledged. The railway bridge over the ravine and brook at Smith's Cove is at present resting in a state of partial completion. It is of considerable length, and some forty feet in height. The beams which will sustain the superstructure rest on piles, and are constructed of southern pine. Work will be resumed on this structure as soon as the frost shall leave the ground. A little over a mile's tramp brought us to Bear River, to the point where there is a very heavy rock cutting in progress, and at the rate now being made it appears to be doubtful if it can be finished by the time the other sections of the road are raised and ready for work. For nearly half a mile in the direction toward the Cove there is some very heavy work to be done in cutting and filling in, and it will require all the resources of the contractors to have it finished before the autumn months. From this place we proceeded up stream to the beautiful town generally known as Bear River, of which we shall have something to say next week. —Mr. Francis Poir, of No. 67 East Tenth Street, St. Paul, Minn., has lately patented a device for the protection of brakemen or conductors who are compelled to operate brakes from the top of a train. It consists of a running board on each car, so adapted as to closely approach a similar board on an opposing car, thereby affording safe passage from one to another. The board at each end of the car, has projecting extremities wider than the body portion, to afford an easy and safe footing, these ends being stayed or strengthened by suitable brackets, and at the sides of the board are upright supporting guards radiating from end to end of the car. There is also a skirting rail near the bottom, so that the feet of one on the board will not be liable to slip outward. A traverse gantry of similar construction is likewise provided for each end of the car, to intercept with the running-board.

Local and Other Matters.

—Lenten season commenced Feb. 19th; Palm Sunday March 30th; Good Friday May 1st; Easter Sunday April 6th. —Our respected townsmen, Robert Fitz Randolph, Esq., spent a day or two in Digby last week. —James Kearns, an employe in the shipyard, received a slight injury, while in the act of heaving timber, on Wednesday last. —Call at J. W. Beckwith's and see the greatest and best assortment of Dry Goods ever opened in the county. He takes great pleasure in showing goods. —Mr. John H. Fisher took his departure for Bridgewater yesterday afternoon, and will at once commence business in the building lately purchased by him at that place. —It is expected that the Rev. Mr. Raven will officiate at Bridgewater and Belleisle next Sunday, and that the Rev. Mr. deBlais will preach at Round Hill, Mochele and Greywood. —Prof. Higgins has notified the department of marine that a storm of unusual severity will take place on the coast of Europe on the 17th and 18th inst, and in America on the 21st and 23rd. —J. W. Beckwith leads the price in the Egg trade. —Dr. George deWitt has recently purchased a building site for a summer residence at Bedford, near the Bedford hotel. The Dr. is a brother of Mr. James deWitt, of this town, and is enjoying a lucrative practice in Halifax. —Elakim E. Tupper, Esq., of Bear River, was unanimously chosen a candidate to represent the County of Digby at the convention of the Liberal party held last week. Mr. Tupper was born in Stewiack, N. S., but has lived at Bear River for several years. The French candidate will be nominated hereafter. —The first arrival of trees this season has just come to hand from England. A splendid lot of Industry Gooseberry, at \$2.50 per dozen, 1,700 Hawthorn hedges, at \$14 per thousand—both in splendid condition. Catalogue ready to let. Send name and address to T. E. Smith, Nova Scotia Nursery, Cornwallis. —Prof. D. E. Woodman, the champion mile walker of the world, will be one of the great attractions at the last skating carnival of the season in the Annapolis park, which is to take place this evening. This gentleman walked at Windsor last week, and in a five mile tramp succeeded in beating the world's record—38 minutes, 57 seconds, covering the distance in 38 minutes and 50 seconds. —Mr. E. G. Thompson, formerly of the firm of Thompson & Shafter, has recently graduated from the Philadelphia Dental College. We understand he is on his way to Woodstock, N. B., where he intends practicing the profession of dentistry in partnership with son of Dr. Chas. Morse, late of Weymouth. We extend our best wishes for Dr. Thompson's success. —Special religious services are still held in the Baptist Church every evening of the week except Wednesday and Saturday. Though the weather has been unfavorable, large numbers have been present at each meeting, and the interest appears to be well sustained. An especially interesting feature of the meeting is the Bible reading, given on Tuesday and Sabbath evenings. The meetings will be continued through the month, and probably the next. —On Thursday, at North Williamstown, Feb. 24th, of heart disease, Matilda, wife of Levi Whitman, Esq., in the 79th year of her age, leaving a husband, seven children, thirty-nine grandchildren, and eleven great-grandchildren, to mourn the loss of a kind and thoughtful wife and mother, and the community a good neighbor. The funeral services were conducted by the Rev. J. T. Eaton, of Lawrencetown. May God support the afflicted ones in this their hour of trouble. —J. J. Morrison has taken up his quarters at Smith's Cove, and long and favorably occupied by Mr. John H. Fisher, and will conduct the Custom Tailoring business from this time forward at that stand. Mr. Morrison has been carrying on the tailoring and dressmaking business at Middleton for several years past, and still retains his interest in that establishment though most of his time will be spent in his new field of labor. As it is his aim to employ none but first-class workmen, we bespeak for him a share of the public patronage. —A HISTORICAL RELIC.—During a recent visit to Smith's Cove, in Digby county, we were shown a powder horn with this inscription upon it: "Belonged to Capt. Edward A. D., 1758—Joseph Potter, Junr." The tradition concerning it is that before the attack on that fort he made the inscription with his pocket knife on the horn which he had picked up and previously fashioned with the same knife. It is the possession of a great-grandson of the maker—Edward Potter, Esq., at Smith's Cove, where it may be seen by the curious. —It is stated that Charles J. McDonald, Post Office Inspector of Nova Scotia, is at Ottawa, in connection with the Nova Scotia Central Railway, and is urging the adoption of the railway mail car system on that road, with every prospect of success. We earnestly trust that the case will meet with the speedy sanction of those who have the authority in such matters, as it must certainly prove a great benefit and advantage to the large number of families living on the line of the railway, outside of the privilege it will afford in expediting and facilitating the large and increasing trade of those engaged in business. —Rumor says that lately three gentlemen visited Middleton and inspected some farming property in the neighborhood of that town for the purpose of establishing an extensive henry. This enterprise is attracting a good deal of attention in different parts of the county, and already some two or more residents of Round Hill are engaged in the calling on quite a large scale, the enterprise being conducted by Messrs. A. Albert, William Sanders, Director of Experiment Farms, Ottawa. This barley is pronounced to be the finest obtained, and has received many prizes. —Conductor Joe Edwards has in his possession the old wooden clock that Judge Halliburton (Sam Slick) bought from the Yankee pedlar. It was one of the first that came to Nova Scotia and was made by Terry of New York, and is now in the possession of the late Rev. Mr. Craascomb, whose son George traded it a few years ago to H. Hoyt, Windsor, for a smaller one. John Conley, Windsor, who used to be coachman for the judge, remembers the clock well, having often found it, and Jas. Haley knows it as the one bought by Rev. Mr. Craascomb. H. Hoyt, the last owner, presented it to Conductor Edwards, who highly prizes it as a souvenir of Sam Slick, the clock-maker. —Just at present there is considerable discussion and interest manifested among the farmers owing to the seizure of two horses from the stable of Mr. Hunsinger, Tepper, of Clark's Ferry, by Messrs. Bonneau and Keefe, custom officers in the employ of the Dominion Government. The seizure came from Mr. M. B. Longley, a native of this county, now residing at Lynn, Mass., a gentleman extensively known in horse circles, and who were at the Custom House, Annapolis, for stock purposes only, thus evading a duty of 20 per cent. It would appear from information at hand that the first animal was sent to the address of Dr. A. B. Cunningham, of Annapolis, without all the latest improvements added to make the undertaking a success, and that a great number of fowl are being treated on scientific principles at the present time. The advantages offered to the dealers which are expected to save 70 per cent of the cost of the old-fashioned mode of curing, are being experienced by the use of the malle 75,000 of free delivery ones have been ordered. —Shiloh's Catarrh Remedy, a marvellous cure for Catarrh, Gleet, Gonorrhoea, Mucous and Seed-seed. With each bottle sent the requisite food at a small cost, and the most successful treatment of these complaints without extra charge. Price 50 cents. Sold by Dr. J. H. H. OULLYAN, Bridgewater, Dr. Morse, Lawrencetown.

Assignments of the estate of Mr. Joseph H. Graves.

—Mr. James McGivern, of St. John, is in town. He has been spending the past few days among relatives and friends in Digby and Annapolis. —D. M. Ferry & Co., seafarers, Windsor, Ontario, have a large stock of seeds containing flower and vegetable seeds which reached us safely on St. Patrick's day. —J. W. Beckwith has received his stock of Ladies' Fine Boots and Shoes, Maple Leaf Brand. Every pair warranted. —Hampton Happenings. —Last week was very mild and calm. Some of our boys set some snares, but found better success, there being very few caught. These, with all sorts, were used for bait, and something over one hundred codfish caught, which found a ready market at Bridgewater. —Five Steers.—In the barn of Mr. George Anthony, St. Croix, may be seen a fine pair of steers as the county can produce. They are very handsome, splendidly built, excellent workers, and good feeders. Their weight is twelve feet six inches. It is understood he sold them a few days ago for eighty dollars. —The semi-annual meeting of the S. S. Convention for Ward No. 19 met at the S. S. at South Williamstown, on Friday, the 7th inst., at 2 p. m. The meeting was called to order by Henry Whitman, vice-president, before the convention by Bro. H. S. Charlton. The reports from the delegates of the various schools in the ward were received, and showed the schools to be all in a healthy condition. A paper was read before the convention by N. R. Dunn, subject, "Responsibility of parents for the education of their children." The paper was discussed by the Revs. W. B. Bradshaw, J. T. Eaton, McMillan, Ross, A. Shann and Bro. F. Fitz Randolph. All the speakers, with but slight exceptions, agreed with the sentiments of the paper, which was that the success of our S. S. was largely in the hands of the parents. —Evening session opened with Rev. J. T. Eaton in the chair. Music, "All Hail the Power of Jesus Name." Prayer by Bro. W. B. Bradshaw. The evening session was well rendered. Music, "Remember Me," recitation, "A Woman's Story," by Miss Flora Bishop; after which the convention formed into a class, and was taught a lesson by Rev. W. B. Bradshaw, subject, "The Great Physician," Luke iv, xxiii, xlii; music, "Thou shalt love thy neighbor," recitation, "Guiltily we are guilty," by Miss E. G. Thompson; music, "The Lord is my strength," recitation, "I know that my Redeemer lives," recitation, "Is it nothing to you," by Miss Lillie McMillan; music, "God be with you till we meet again." —The usual vote of thanks was extended to the inhabitants of Williamstown for their hospitality, and the choir for their excellent rendering of the hymns. The evening session was closed by Rev. W. B. Bradshaw. N. D. DENN, Secretary.

The Charlotteville Case.

—CHARLOTTEVILLE, F. R. I., March 12. —The poisoning examination was resumed this morning at the city court. W. D. McKay, Arthur Johnson, Mrs. John Whelan, Mrs. Wm. Brown, Ed. Munro and Annie Gillespie were the principal witnesses. An autopsy was elicited. The Marro girl said that Mr. Sutherland called at her house on the Sunday after she left, and inquired how she was getting on. She says she was in the kitchen, and Mr. Sutherland called at her house on the Sunday after she left, and inquired how she was getting on. She says she was in the kitchen, and Mr. Sutherland called at her house on the Sunday after she left, and inquired how she was getting on. —The poisoning case was resumed this morning at the city court.
