person says of Hawker's nerve and stomach tonic after giving it a trial. It is bracing. But it is more than that. It is a health restorer in the fullest sense. It enriches the blood, ensures a healthy digestion, and promotes restful sleep. It rebuilds the wasted tissue of the nerves and makes them strong again. It restores and invigorates the whole system and is just the remedy needed by the sufferer from nervous dyspepsia, nervous debility, general prostration or the "run down" condition following an attack of grippe or other disease. "While Rector of St. Mary's Church, Montreal, I received, in answer to a request several months ago, a package of K. D. C. I desired it for the benefit of my wife who had been troubled with dyspepsia for a number of years. I am glad to say that she is completely cured by its use, although she shared the one package among friends. You may be sure that we constantly recommend the remedy, which has been so effective in her case, while other remedies have failed to permanerally cure."

The foregoing should convince the most skeptical of the wonder working power of K. D. C.
