

Messrs Gibb and Fisk, of Abbotstford, recommend the following sorts of apples as most suitable for general planting in the province of Quebec: v. Jour. p. 11, vol. 1: Duchess of Oldenburg; Montreal Peach; Red Astrachan; Alexander; St Lawrence; Fameuse; for earlies. Of late winter apples they say: we wish a more

encouraging word could be spoken. We have Jonathan; Wealthy; Yellow Belle Fleur; Blue Pearmain; Bourassa; Pomme Grise; but like the Early Joe, and Irish Peach, of early maturity, they are dessert luxuries, and even the Golden Russet, though it should be in every orchard, rarely makes the monied return of a Fameuse or Duchess. WELLS, RICHARDSON & CO'S
IMPROVED BUTTER COLOR
A NEW DISCOVERY.
 For several years we have furnished the Dairy-men of America with an excellent artificial color for butter; so meritorious that it met with great success everywhere receiving the highest and only prizes at both International Dairy Fairs.
 But by patient and scientific chemical research we have improved in several points, and now offer this new color as the best in the world. It Will Not Color the Buttermilk. It Will Not Turn Rancid. It is the Strongest, Brightest and Cheapest Color Made.
 And, while prepared in oil, is so compound ed that it is impossible for it to become rancid.
BEWARE of all imitations, and of all other oil colors, for they are liable to become rancid and spoil the butter.
 If you cannot get the "Improved" write us to know where and how to get it without extra expense.
