## Warranted Seed.

I have founded my business on the belief that the public are anxious to get their seed directly from the grower. Raising a large proportion of my seed enables me to warrant its freshness and purity, as see my Vegetable and Flower Seed Catalogue for 1888, FREE for every son and daughter of Adam. It is liberally illustrated with engravings made directly from photographs of vegetables grown on my seed farms. Besides an immense variety of standard seed, you will find in it some valuable new vegetables not found in any other catalogue. As the original introducer of the Eclipse Beet, Burbank and Early Ohio Potatoes, Hubbard Squash, Deanehead Cabbage, Cory Corn, and a score of other valuable vegetables, I invite the patronage of the public.

MR. GERRED.

EGLINTON, Jan. 16, 1888.

DEAR SIR,—I have paid particular attention to Incubators since the exhibit of the Glass Hen at the Industrial, and like the plan and workings of yours better than any other I have seen. Have had many enquiries which is the best and most reliable, and always recommended yours. Since I first saw it I have watched it closely, and believe yours to be the best and most reliable Incubator we have in Canada. Yours very truly, W. H. DOEL.
