## A GREAT SUCCESS

A Double Feed Fountain Pen that never fails  
"DASHAWAY"

"The best Fountain Pen yet invented."—*New York World.*

Special Features.—It never fails to mark; does not "flood" at one time and "skip" at another. No complication to get out of order; and with care a pen will last many years. Any good writing or copying ink may be used. The "nib" is finest quality gold and cannot corrode. The pen is always ready for use when charged with ink.

For convenience, durability and general satisfaction this pen is unexcelled.

## CAW'S STYLOGRAPHIC PEN

Simplicity of Construction, Certainty of Action.

A supply of ink is carried in the handle sufficient to write from fifty to sixty pages of foolscap paper.

Materials.—These pens are made of VULCANIZED RUBBER of the finest quality; mounting of 18 KARAT GOLD; points of IRIIDIUM ALLOY (next to the diamond in hardness), set in a tube of SOLID GOLD; yokes of STERLING SILVER with SPRINGS OF GOLD. There is nothing to corrode, and with ordinary care, a pen will last many years.

Special Features.—The needle-point of pure silver forms part of the yoke, which, being adjustable, the writer can fix to suit his own requirements. It also acts as a cleaner to the stylus point when it becomes clogged, thus insuring a uniform and certain flow of ink.

#### FAVORITE LINES

No. 1, "Stylo," \$1.50; to members \$1.20.  
No. 3, "Stylo," \$1.75; to members, \$1.40.
