THE Presbyteman Church follows Scotsmen whereever they go. In Victoria, Australia, where there is a large Scottish and North of Ireland representation, it has been strong from the first, and Melbourne is a power-ful Preshyterian centre. It appears that a love of change has manifested fiself among the churches of that city. It is thought that the governing power has been too much in the hands of the clergy, and the demand Is made that the Preshyterian system we so modified as to admit of a larger lay representation. This is an old story. Congregations have always manifested a disposition to relief when they felt the power of the presbytery. It will not be wonderful, however, if in these new regions public sentiment should force some change.—Free Press.

Smith, M.A., R.D., of Guelph, preached both morning and evening. The sermons were faithful presentations of gospel truth and characterized by ethical teaching of a very high-order. On the Monday evening following, Rev 1! McF. McLeod, of Toronto, delivered his noted lecture in the same church on "That Young Man." It evinced a wondestal knowledge of human nature, keen powers of other vation on the part of the lecturer, and was interspersed with sufficient of the humorous to keep all present goodnatural and pleasant, while at the same time it contained good gospel teaching for all, and especially for young men. It was an intellectual treat which the autience thoroughly enjoyed, and shows that Mr. McLeod, on platform as well as in pulpit, is able to sustain the high repetation which he has a deservedly won.

The concert exercise was followed by Mr. McEwen, who succeeded in holding the attention of the scholars on a somewhat difficult theme, to the very close of a forty-five minutes' address. The prizes for the year were distributed to the successful scholars, which was followed by a genuine su price to the sup rintendent Mr W William son, hen Mr James Cratch came forward, and in the name of the teachers and a few friends, pre-ented him with an address accompanied by a very hindsome time plece. A LARGE representative meeting of the congregation of St. Andrew's church, Lindsay, was held in the church room on Wednesday evening. The meeting was called for the consideration of a proposition relative to the build ing of a new church, and the large attendance of the members, both ladies and gentlemen, showed that a lively interest was taken in the question by the congregation. Sheriff McLennan was appointed chairman, and a state-ment was submitted by the board of managers, the purport of which was that owing to the present church not affording sufficient accommodation a new church should be built. They had solicited subscriptions in order to ascertain the feeling of the congregation with regard to the matter, and by sixteen persons the large amount of \$6,050 had been subscribed. Mr. McNeille explained that although the Presbyterian population in the town had been gradually increasing, in 1874 two churches afforded accommodation for nearly 600 people, while at present there was only accommodation for about 350 people. The Rev. Dr McTavish stated that the success ful working of the church was much impeded by lack of accommodation. Opinions were then expressed by members of the congregations, and all were in favour and anxious that a new church should be built. It was decided anxious that a new church should be built. It was decided then that a church should be built in some central locality. Finance and building committees composed of the following gentlemen were then drafted: Finance Committee-Sheriff McLennan, S. A. McMurtry, D. Duncon, A. Rob rison, Alex. Jackson, Wm. Brown, J. McSweyn, T. Stewart and J. R. McNeillie. Building Committee-W. Needler, R. Spier, Andrew Jackson, A. Camphell, D. J. McIntyre, M. P. P., James I lamilton, James Keith, J. Mathie and Thos. J. Ray. The committees were instructed to I ring in reports of progress at the annual congregational meeting to be held in January. There can be no doubt but that our friends of St. Andrew's church will, in building a new church and enlarge rew's church will, in boilding a new church and enlarging their borders, take a step that will not only add to the importance of the church, but give that accommodation which has so long been urgently needed. We hove to see some scheme matured in time to commence operations early the coming spring. - Post.
