

**POWERFUL
STARCH-
DIGESTANT**

TAKA-DIASTASE

AN
**AMYLOLYTIC
FERMENT**

OF INESTIMABLE VALUE.

TAKA-DIASTASE is the **most potent starch-digestant known**—so potent, in fact, that in ten minutes, under proper conditions, it will convert into sugars **one hundred and fifty times its own weight of starch**. In the treatment of amylaceous dyspepsia no other agent approaches it in serviceability. It is likewise of much value in chronic gastric and intestinal catarrh and the type of fermentative dyspepsia that accompanies them.

Taka-Diastase is supplied in

EVERY DESIRED FORM

—powder, liquid, tablet, capsule. We also list a variety of combinations of **Taka-Diastase** with other agents, as shown by our catalogue.

LITERATURE SENT FREE ON REQUEST.
