THEY CAN READ AS THEY RUN.

There is nothing that can possibly be of more value to intending settlers in any new country than a reliable hand book, setting forth a correct idea of the country's resources, wooded or timber lands, rivers, lakes, mountains and valleys. J. H. Brownlee's Index Map and Guide to Manitoba is now issued in the most simple and correct form. A valuable work in which there are 14 pages of Index giving the name of every settlement in that section of our Northwest, Railroad lines completed or contemplated, Townships, grain centres, rivers, lakes, in short, all that can possibly be required. It has been pronounced by competent judges as a guide that has no equal on this continent, and then the price—25 cents—places it within the reach of all. For all particulars address J. H. Brownlee, Brandon, Man.
