The Brazilian rebels are gathering forces to the number of 7,000 in Rio Grande do Sul, and Admiral da Gama is to lead them. Since the beginning of May last, the complete extermination of the Brazilian rebels has been cabled to this country exactly eleven times.

MR. W. A. REID, Jefferson Street, Schenectady, N. Y., 22nd July, '94, writes:

"I consider Acetocura to be very beneficial for La Grippe, Malaria and Rheumatism, as well as Neuralgia, and many other complaints to which flesh is heir, but these are very common here."

Money appropriated by Congress for the support of the Life Saving Service is an investment in which Uncle Sam should find just cause for satisfaction. Almost four thousand shipwrecked persons were rescued by the life-savers during the last year, while of the \$10,000,000 represented in the ships aided in distress \$8,000,000 was saved.

REV. P. C. HEADLEY, 697 Huntington Avenue, Boston, U.S.A., April 2nd, 1894, writes:

"I have found the Acid treatment all it claims to be as a remedy for disease.

"While it does all that is stated in the descriptive and prescriptive pamphlet, I found it of great value for bracing effect, one part of the acid to ten of water applied with a flesh brush, and towels after it; also an excellent internal regulator with five or six drops in a tumbler of water. I should be unwilling to be without so reliable and safe a remedy.

"I wonder that no mention is made in the pamphlet of the sure cure the Acid is for corns (applied once or twice a day), so many are afflicted with them. It was death to mine."

## The Subject of Wasting.

SOME OF ITS PHASES AND HOW THEY ARE CURED.

The Wasting of a Consumptive and the Wasting of Babies and Children—Scrofula, Anæmia and Other Forms of Illness Discussed—Coughs and Colds Reveal a Weakened Condition.

In the obituary notices of the late Prof. Hermann von Helmholtz, the German scientist, were references to one of his earlier works "On the Consumption of Tissue During Muscular Action." In this work Prof. Helmholtz set the theory forth as an established fact that wherever there is muscular action there is also a wasting, or rather a consumption of tissue.

The body is constantly changing. There is wasting going on all the time. Food is designed to counteract this wasting, and if the organs of the body are in a healthy state food does its work in nourishment. But the digestive and vital organs get out of tune every once in a while, so that an extra nourishment, one that is concentrated and easy of assimilation, is needed in order to keep up a normal condition of health.

If this extra nourishment is not taken the wasting which goes on incessantly soon impairs health. One of the first signs of a weakened, poorly-nourished body is taking cold easily. Colds are such common things that people are very apt to neglect them. They do not know that the cold reveals a weakened condition, but after taking cold several times they find it harder work to recover the semblance of health again.

The common way to cure a cold or a cough is to take some household specific, or when a person feels run down in health he thinks he needs a tonic or stimulant.

The truth is, however, ordinary specifics and tonics or stimulants, for coughs and colds, afford only temporary relief. They are merely superficial means of relieving the local trouble, but they do not give the nourishment necessary to strengthen the system and overcome the wasting tendencies.

It is because Scott's Emulsion promotes the making of healthy tissue, enriches the blood, and gives vital strength that physicians give

it such unqualified endorsement. Scott's Emulsion is quick to relieve inflammation of Throat and Lungs, and its power to cure the most stubborn cough is unquestioned. But this is only part of its work. Scott's Emulsion makes the system able to ward off disease and other ailments.

The subject of wasting is almost inexhaustible. Scrofula results in a wasting of the vital elements of the blood, and Anæmia is simply no blood at all. Consumption is probably the worst form of wasting. In all of the early stages of this disease Scott's Emulsion will effect a cure. It requires time to recover after a patient is once into Consumption but there are numerous cases where Scott's Emulsion has cured persons who had got so far that they raised quantities of blood.

The wasting tendencies of babies and children are known to too many unhappy parents. There does not, in thousands of instances, seem to be any cause for their growing thin, but, as a matter of fact, their food does not nourish them and the babies and children do not thrive. The babies are weak and children seem to grow only one way.

Now it costs only 50 cents to try Scott's Emulsion, and you will find that it will do more for your baby or your child than all the rest of the nourishment taken. Scott's Emulsion makes babies fat and children robust and healthy. It takes away the thin, haggard look in the pinched faces of so many children.

Another one of the many uses of Scott's Emulsion is the way it helps mothers who are nursing babies. It gives them strength and makes their milk rich with the principles of food all babies need.

Scott's Emulsion is not a secret mixture. Its formula is furnished to physicians and has been endorsed by physicians for twenty years. It has a record unequalled by any other preparation in the world. For sale by all druggists, 50 cents and one dollar. Pamphlet mailed by Scott & Bowne, Belleville, on application.
