

- ii) Effluent/waste handling/treatment plant sections
- iii) Recycling
- iv) Other sections

5) Analytical laboratories

- i) Instruments available at the works
- ii) Instruments available at the production plant
- iii) Analytical laboratories at the production plant

6) Computer system

7) Access to computer-based data and records

8) Safety Briefing

9) First aid

10) Areas to which inspectors have access

- i) Unrestricted access
- ii) Access on request

11) Technical information on the production plant

- i) Reaction scheme
- ii) Chemicals
- iii) Type of process: e.g. continuous or batch;
- iv) Technology employed; process engineering particulars
- v) Data on processing and/or production batch
 - a) Quantity of end product
 - b) Duration of production/processing batch
 - c) Loading
 - d) Yield
 - e) Purity of final product
