

McGILL UNIVERSITY
MONTREAL

FACULTY OF MEDICINE
OFFICE OF THE DEAN

November 29th,
1930.

Sir Arthur Currie,
Principal - McGill University,
Montreal.

Dear Sir Arthur,

Re: Survey of past decade in Faculty of Medicine.

I would suggest that we have as an Executive Committee not more than five members, namely, Professors Meakins, Bazin, Oertel, ~~Simpson~~ and myself. If, in your opinion, any other names should be substituted, it would, of course, be quite agreeable to me. A larger committee consisting of the heads of all departments might be called together as developments take place, but each would be asked to supply a definite statement according to some form of instructions which will be issued.

Trusting this is satisfactory,

Faithfully yours,

C. J. Martin

DEAN.
