STACK

January 29th 1897.

As it was stated to me that the report was
current that Sir Wm. Dawson had changed his
views on "Evolution" since the publication
of his book, I asked him to-day if such
was the case. He emphatically denied
the rumour. He further stated that it
was not his intention to write anything
further on the subject till the various
Kinds of Evolutionists came to something
like agreement among themselves.
