MONTREAL, March 14 .- A London cable to The Daily Mail says:
The Daily Express (Conservative) prints an article hinting at a political intrigue which aims at the establish ment of a working alliance between Mr. Lloyd George, the chancellor of the exchequer, and Mr. J. Ramsay Mac-donald, the leader of the parliamentary

It is based upon Mr. Lloyd George's eagerness to secure a compromise on home rule and Mr. Macdonald's hint in the debate on Monday last that the government should drop the time limit feature of its offer to Uister.

The Express says that both leaders are eager to get home rule out of the way, and it is already anticipated that after the next general election they will act together in the formation of a radical-socialist coalition which will be in active opposition to the imperial ist Liberals, represented by Sir Edward Grey and Winston Churchill.

The Express adds: "The scheme is less fantastic than might be supposed. Lloyd George's place in politics will soon become dublous.
