ENEMY IS FREELY USING POISON GAS

Fumes Employed Both in Offence and Defence, Says French.

FOE IS WELL EQUIPPED

All Preparations Deliberately Made Before Experiment Was Tried.

LONDON, May 4.—There has been news out in London a report on the use of asphyxiating gases by the Germans from Sir John French, commander-in-chief of the British expeditionary force on the continent, which reads as follows:

"The gases employed by the Germans have been ejected from pipes laid out in trenches. It has been produced also by the explosion of shells especially manufactured for this purpose. German troops who attacked under cover of these gases were provided with especially designed respirators which were issued in sealed packages at all points on the line. This shows medical preparation on a large scale."

Deliberate Trickery. "A week before the Germans first used this method they announced in their reports that we were making use of asphyxiating gases. At that time there appeared to be no reason for this astounding falsehood. Now it is obvious that it was part of a scheme, and it is further proof of the

Acid Stomachs Are Dangerous

Common Sense Advice by a Distinguished Specialist.

"Acid" stomachs are dangerous because acid irritates and inflames the delicate lining of the stomach, thus hindering and preventing the proper stop of the stomach, and leading to profuse stomach trouble, from which people suffer. Ordinary medicines and medicinal treatments are useless in such cases, for they leave the source of the trouble, the acid in the stomach, as dangerous as ever. The acid must be neutralized, and this is followed by a course of treatment which ordinarily cause distress. For this purpose is a special preparation of magnesia, a simple antacid, taken in a little warm or cold water after eating, which not only neutralizes the acid, but also prevents the fermentation from which acidity is developed. Foods which ordinarily cause distress may be eaten with impunity if the meal is followed with a little blaziated magnesia, which can be obtained from any druggist, and should always be kept handy.

CZAR INSPECTS ARMY IN PART OF ODESSA

Troops Leaving for Campaign Give His Majesty Great Demonstration.

BY MARTIN DONOHUE. Special Cable to The Toronto World. ODESSA, April 28.—(Via London, May 4).—The czar has come and gone in this greatest city of southern Russia, the ruler of all Russia, was accorded a magnificent reception. Nicholas II. drove thru streets that were lined with troops and cheering multitudes. "Long live the czar. Long live Russia," were cries from everywhere that greeted the imperial cars. The czar was in an automobile and attended by a single officer. He wore the simple service dress, with the khaki colored blouse of the Russian officer. During his triumphal progress thru the streets, the czar, ringing etiquette to the winds, stood up in his automobile with uncovered head, and bowed to the cheering multitude.

In a quadrangle by the railway station the czar inspected his troops. It was no perfunctory ceremony. At a brisk pace he walked along the entire front of his massed forces, stopping to speak to a general or private when he had something to say. Then the czar made a speech to the officers and men.

GERMANS SELDOM FIRE WHILE MEN ARE SINGING

Letter From Warrant Officer Thomson Describes Canadian Contempt for Snipers.

Canadians' coolness under the fire of German bullets is described in a letter just received by Superintendent Watson of Elm Street Methodist Church Sunday School, from Alfred Thomson, a Toronto boy who has been promoted to the rank of warrant officer, and who, writing from the trenches, says: "We now take bullets as a matter of course. A miss is as good as a mile no matter how close the bullet, and is regarded as a joke. It is surprising how rapidly the men adapted themselves to dangerous conditions. Stories of the accurate aim of the German snipers are not at all exaggerated, and they give us a very warm time when we are out repairing the wire entanglements or on patrol duty. There is a fascination in hearing the bullets go whizzing by, however, that those who have not experienced the sensation do not realize. Our men are in the very best of spirits, although there is much discomfort to be endured and very little sleep obtained. In the early evening when every man is at his post the men begin singing popular songs, and as the dusk deepens the old favorites and hymns are sung. The Germans must enjoy the singing for they seldom fire a shot at these times."

Application of German Was Refused by Mr. Justice Sutherland.

AT OSGOODE HALL

Results of Law School Examinations Have Been Announced.

"I renounce forever all allegiance to any foreign prince, potentate or state, and particularly Wilhelm II, Emperor of Germany, of whom I am a subject, and it is my intention to become a citizen of the United States," is the statement made in the affidavit of Rudolph Saenger, a German, who made application to Mr. Justice Sutherland at Osgoode Hall to recover \$5000 from Maurice Tellers of Toronto.
