

## TO FARMERS!

### **Rarey's Horse and Cattle Improving Food,**

is equally adapted to improve the Stamina of ill-conditioned Horses, Cows, Bullocks, Calves, Sheep and Pigs.

It causes no extra expense, as it contains far more and better nourishment than its cost of 1½d. per feed supplies in corn or hay; hence it ensures an actual saving in the keep. But its principal advantages are a great improvement in the digestive functions, the Stamina and general condition of horses, enabling them to perform far more labour without getting distressed; it imparts new vigour to sick, debilitated, or old, apparently worn out Horses, and it puts rapidly the finest flesh on cattle generally, as it enables them to extract the entire nourishment out of everything they feed on. In a short time it improves the appearance and value of horses and cattle by 20 to 30 per cent. Sold in Tins, Casks and by the pound to suit purchasers.

*RAREY & Co., 77 Piccadilly Quadrant, London.
