EMBROIDERED LAWN DESIGN.

A clever combination of hand and machine embroidery is shown in this sketch. A machine-made flouncing, with a simple design, was used for the skirt and the edge, while a single flower of the design was copied in handwork on the little jacket fronts and cuffs.

Lace insertion was used, as shown in putting the dress together, and bows of ribbon finish neck and sleeves.

IF THIS IS YOUR BIRTHDAY
Do not make great changes or enter upon new projects. It will be better for you to concentrate your attention on the tasks in hand, and not to attempt too many things at one time. Those born today will have inventiveness in their undertakings. Versatility rather than special talent will be characteristic of them.

THEATRES

"Gypsy Love"—Princess

A. H. Woods, Franz Lehar, Phyllis Partington, and Arthur Albro have made "Gypsy Love" the foremost comic opera of present-day theatrics. Mr. Woods has spared no expense in giving Lehar's clever work a sumptuous production, and success is due the liberal manager. The international musical hit, for such it really is, since it has been made the most popular fifteen minutes comedy in London, where it is playing to capacity houses at the Theatre for a week's engagement beginning tonight. "Gypsy Love" is declared to be a much more ambitious offering than either Lehar's "Merry Widow" or the "Count of Luxembourg". Beautiful scenery, gorgeous gowns, a big chorus and an augmented orchestra are the striking points of this beautiful production.

A Family Play Room

I do not mean the living room or library. One doesn't feel like romping when mother is worried about the rug, and afraid the glass in the book shelves will suffer. I mean a real play room, where one need not think about rugs or furniture. It is not easy to give up a room for such purposes. Usually we need every inch of space in the house. But every home in which there are growing young people ought to have a play room, where father and mother and the girls and boys may gather to join in various games.

Few people play enough, and the play room will help father and mother keep acquainted with the growing-up family, besides making them forget their business and housekeeping worries. Other young people will gladly come to a home that is not just a place for eating and sleeping. The play room should not be overfurnished. It should be comfortable-looking, well-lighted and heated. I know of one home where the large front top floor room is given over to fun. There are built in seats all around the room, which saves the space that family games would occupy. The small tables made now, make it possible to have this game in most homes. Many different games may be played on the table besides the regulation game; or the table is a folding one, it may be put to one side while the whole company join in some old-fashioned game—where even a little romping may be overlooked.

Of course, all this fun may be had in a home where there is no play room, but if at all possible, dedicate one room solely to amusement and recreation. Then you have a room where no one is disturbed, and that is always ready for a good time, because it doesn't mind being "mussed up."

Good Show at the Star

"The New Century Girls" will be the offer of the Star this week. The great success attained by this attraction has caused the management to add many expensive novelties. The scenery and costumes are entirely new, and the twenty chorus girls are said to be pretty and sweet voiced. The curtain-raiser is termed "A Busy Day at Union Station," and the closing burlesque "The Lord's Reception," both arranged and staged by the popular

"OUR EMPIRE NAVY" STAYS THIS WEEK

Since the opening night of "Our Empire Navy" at Massey Hall last Monday, this patriotic naval exhibition has been steadily building up business, and it is estimated that over 25,000 people have now witnessed Mr. Guy Bradford's instructive and entertaining exhibition. So pleased is Mr. Bradford with the success the entertainment has achieved that he has decided to keep the moving pictures running at Massey Hall for a further week, and therefore every night this week (Friday only) except the "Our Empire Navy" will be given at Massey Hall, but there will be only two matinees, viz., Wednesday and Saturday, at 2.30. Mr. Bradford has also made a sweeping change in the prices, increasing popular rates of 10c and 25c only. The children's prize competition will be continued over the whole of next week, and the prize awarded on Saturday evening during the exhibition. Mr. Bradford has offered prizes of \$25, \$10 and \$5 for the three best essays, "Our Empire Navy," written by children under 16 years of age.

MUSIC

Montreal Opera Company Produces "La Vivandiere"

On Saturday night the Montreal Opera Company produced for the first time in Canada, and possibly for the first time in America, Benjamin Godard's posthumous opera, "La Vivandiere." Every concert-goer is familiar with Godard's songs and violin compositions, but his opera, which debuted eight years ago, is hardly known outside France. He died in his 48th year in 1894, and "La Vivandiere" was produced after his death. In the cast basso, Albert Huberty, and the remarkable contralto, Yvonne Courtois, both of whom are favorites in Toronto. It found to warrant it. "La Vivandiere" will be among the operas presented by the Montreal Opera Company when it comes to Toronto for three weeks next February.

CHILDREN'S CHOIR AT ANNIVERSARY

One of the finest choirs of children's voices that has been heard in this city, was heard at the Central Methodist Church, Bloor street, yesterday. It was the occasion of the 77th anniversary of the Sunday school, and three services especially for the scholars, were held in the main auditorium of the church. The morning service was conducted by Rev. A. L. Giegie of the church. The afternoon service was in charge of Rev. I. Tovell, associate pastor of Trinity Church.

Rev. R. N. Burns of Berkeley Street Church, who took the evening service, likened the attributes one required of those of a watch. As with a watch it was not the outer frame or body that was all-important, but what was within. It was the soul and mind that made the true Christian and not the body.

WARMTH AND STRENGTH

on a cold day come from foods that are easily digested and are rich in heat-making elements. For the out-door man or the indoor man, for children to study on, to grow on, to play on, there's nothing so nourishing and satisfying as

SHREDDED WHEAT

It is better than porridges for children because they have to chew it. The crispness of the shreds induces thorough mastication, which develops sound teeth. It is the best "whole wheat bread" because it contains all the rich body-building material in the whole wheat. Delicious and nourishing when served with hot milk or canned fruits.
