NEW YORK STOCKS SHOW LITTLE LIFE

Gains, However, Outnumber Declines at the Market's Stagnant Close.

New York, June 18.—The stock market was becalmed today, trading dimnishing steadily after the first hour with an uncertain drift, altho gains outnumbered declines at the stagnant close.

There was again a complete absence of incentive or any developments bearing pertinently upon values. War bulletins were of a hopeful tenor and Secretary McAdoo's statement regarding the rate of interest on the next Liberty Loan evoked favorable banking comment.

Italian exchange continued to improve, rates on neutral countries hardened more perceptibly and further gold imports from Canada were reported, making a total of \$20.000,000 from that source since last week.

So far as important stocks attalways.

Canada were reported, making a total of \$20,000,000 from that source since last week.

So far as important stocks displayed any tendency at all they were guided largely by the irregular course of such stocks as United States Steel and other equipments, also Reading and shippings, these comprising fully 50 per cent. of the small turnover.

Weaken at Close.

Additional gains in Royal Dutch Oil, General Cigars and other highly speculative issues were partly cancelled in the gradual setback of the final hour, when the list yielded again from sheer inertia. Sales amounted to 380,000 shares.

Call money stiffened in response to a broader enquiry, holding at six per cent, but time funds for the shorter periods eased, with no increase of supply.

Liberty bonds were irregular at the close, after showing moderate strength, but internationals, mainly British issues, strengthened. Total sales, par value, aggregated \$6,650,000.

Old United States bonds advanced from % to % per cent. on call.

but internationals maintowned states and states are regarded \$6,850,000 % to \$9 per cent. on call.

Montreal, June 18 .- The tone of the Montreal, June 18.—The tone of the local market for cash oats was weaker and prices declined 1-2c to 1c per bushel, which was attributed principally to the keener competition between sellers. There was a better demand from buyers for supplies and the market was more active than it has been recently.

A feature of the local flour market has been the weaker feeling in rye and corn flour, owing to the more liberal supplies now available on spot.

There were no developments in the market for milled, prices ruling steady with a fair amount of business passing for country account.

Business was very limited in baled hay, with prices unchanged.
