Chicago Prices Maintain the Firmness Imparted Wednesday---Cables Are Higher.

World Office, Thursday Evening, Oct. 3.

Liverpool, wheat futures closed to-day 18 to 18 1/4 up, corn unchanged to 1/4 lower.

At Chicago December wheat closed 1/4 higher, December corn 1/4 higher, and December oats 1/4 higher.

Winnipeg car lots of wheat to-day, 4 old, 137 new, year ago, 270.

Chicago: Wheat 58, contract 4; corn 40, contract 167; oats 55, contract 2.

Northwest cars of wheat to-day 72, week ago 64, year ago 73.

Broomhall cable says: There was a firm undertone to the market, with values on the immediate start unchanged. There was no particular pressure noticeable, but the weaker American cables yesterday caused buyers to hold off. Following the opening there was a sharp advance, prices gaining 3/4, with active trading and offerings light. This support was due to unfavorable news from India. Corn was quiet and values led to 1/4 lower, being influenced by the weaker American cables yesterday, and the fact that spot demand was light. Later there was a slight recovery, particularly in the distant months, due to the strength in wheat.

India cables the drought still continued and rain is urgently needed. There are no particular reports that aid was paid for a small cargo of Australia. Berlin closed 1/4 higher than yesterday. This advance was due to the scarcity of offerings.

Budapest---Wheat 2 1/4 higher.

Weekly Report of Price Current.

Wheat favorable for corn; damage from rust important. Laticas area, yet in danger. Outlook assuring. Week's advance, 341,000 bush, against 280,000 last year.

#### Chicago Cattle Market.

Marshall, Spader & Co. wired J. G. Bealy at the close:

Wheat---The local element in wheat persistently attempted to ignore the sensationalist news in circulation which conditions point out as finally being the extended and evidently authentic character of the same. Liverpool, and Chicago, however, showed sharp advances, while the causes for this arose from continued anticipations for our Australian and Indian crops. The situation in the former was emphasized by a direct cable from London which stated that the crop would be a failure and would leave none for export. This view, which is not wise to overlook, was more credence in the news circulated that we do not intend to give heavy crops of wheat, estimated from 150 to 200 million bushels. That they are not so certain as anticipated for our available surplus supply to meet the needs of European deficiency, and if this is the case, there is no reason why the big stock of wheat in Chicago should be put upon the bargain counter. When conditions point out that it is more credule in the news circulated in this country this year to dictate our policy, it is better to let the complete elimination of competitors.

Ennis & Stoppall wired to J. L. Mitchell:

Wheat---The action of foreign markets came as a surprise to the trade here, both in London and continental markets being exceptionally higher, which had the effect of causing local buyers to cover their positions by opening and later leading covering operations by a prominent bear who had been selling for the past month, with the final result that prices closed nearly 2c higher than yesterday. Further advance from the Canadian northwest, sensational in character, were received, and Minneapolis reported Southern millers buying supplies at terminal points. There were reports of a heavy export demand from practically best prices of crop. The whole situation to-night seems to be a very strong one, with a further demand from abroad to-morrow would not be surprised to see an excited and higher market.

Corn and oats held very firm through the evening, with increasing activity towards the close, registering a good advance for the day. The character of the advance was of the best and indicative of further advance.

C. C. Chapin & Co. to J. Melody & Co.:

Wheat---Bull market money yesterday, and prices advanced nearly 2c. Cables came sharply higher from Liverpool and continental markets, and cash cables were strong for a further advance recently. During the day there were many reports of huge cash sales made for new export, and a tendency to harden prices. Large sales were reported here and out, points for export, and the total at the close was estimated as high as 150 loads. Prices for No. 2 wheat, which did not show any relative advance, and the current price of October, as compared to December, does not suggest any urgent demand. Manipulation in this and other markets and elaborate enlarging of cash business done may result in a further advance, but fundamental conditions do not warrant an advance. Wheat is strong, but fundamental conditions are weak, and the primary movement was in excess of a year ago. Gradual rise in prices is good as it reflects a fair crop. Lack of outside trade makes the market susceptible to sharp reversals, but at present prices, but still think it policy to sell on the bulge.

Corn---Shorts covered early, and with buying by the chief bull interests prices were advanced in sympathy with wheat, an advance of 1c resulting, but the buying was apparently soon satisfied, and the market ruled steady and quiet.

Oats---Little feature to this market. Strength of wheat helped form prices, but there was little trade.

### LANDLORDS INTERFERING IN LICENSE TRANSFERS

#### Object to the Transfers of Leases in Two Cases Before Board.

The license commissioners met yesterday to consider the transfer of 11 licenses, but their labors were nullified by the landlords concerned.

John Harris, landlord of the Power House, King and Spadina, asked for the transfer of his license to James Giles. The owner of the property, through his solicitor, opposed, claiming that Harris has forfeited the lease. He has entered an action in the high court to obtain possession. The lease has seven years to run, two at a rental of \$1500 a year. It contains the usual clause that the lessee should not assign or sublet without the landlord's consent. This Mr. Power refuses, and desires to get control of the property. The solicitor offered to buy back the license at \$4000 spot cash. The commissioners intimated that they considered Mr. Giles a suitable party to hold the license, with the exception of the one for a week to enable the parties to come to terms.

The transfer of the shop license at 523-25 Yonge street, a similar case of difficulties. Giles is the tenant here at \$63 a month on a 15 years' lease. He desires to transfer his interests to Ed Sandell. The owner of the property, James Harris, is the trustee of the property. They would not sanction the transfer of the lease, but were willing to cancel it and give the \$7500 to Sandell, who is willing to do so, but the trustees would not insert a clause giving him permission to assign or sublet. The commissioners said this clause must be inserted in all leases for the future. The case was adjourned for a week for this to be done.

### NEED NAVY TO HIT OUT.

#### President's Warlike Speech at Cairo, Illinois.

CAIRO, Ill., Oct. 3.—In a speech here to-day President Roosevelt called for the rebuilding and maintaining of the highest point of efficiency of the American navy. "To repel hostile attacks the fortifications, and not the navy, must be used; but the best way to parry is to hit---no fight can ever be won except by hitting---and we can only hit by having a navy. It is utterly impossible to improve even a makeshift navy under the conditions of modern warfare. The navy must be built and all its training given in time of peace. Early in December the fleet will begin its voyage to the Pacific. A long ocean voyage is a mighty good thing, and not the least good it will do will be to show just the points where our naval progress needs strengthening."

#### BANQUET TO HON. W. FINDLAY.

LONDON, Oct. 3.—Hon. W. Findlay was entertained at a complimentary banquet in his native town of Lisburn, Antrim, to-day.

#### Quadruple Hanging.

LANCASTER, Pa., Oct. 3.—Anthony Delero, Stephen Carul, Silvero Rodeler, and Joseph Cellone, were hanged here to-day. The crime for which they paid the penalty was the murder of Plato Albamase and was the culmination of a daring robbery.

Not Yet.

MONTREAL, Oct. 3.—F. H. McGaughey, formerly of the G. T. R. and Great Northern Railway, is in the city.

With reference to the recent reports that he was to rejoin the Grand Trunk and to resign, it may be stated that he has still a long period of illness ahead.

### CATTLE MARKETS.

#### Cattle Steady---Hogs 10c to 20c Lower at Buffalo.

### 145 CARS AT CITYWARDS

#### COMMENCEMENT OF SEASON

Prices Much Lower---Sheep, Lambs, Calves, Hogs Hold About Steady.

Receipts of live stock since Tuesday, at the City Cattle Market, as reported by the railways, were 156 carloads, composed of 222 cattle, 1233 hogs, 2575 sheep and lambs, and about 300 calves. Besides the above, there were seven carloads of hogs that went direct to the packing houses.

The quality of cattle was the worst of the season. Fred Cramble, president of the old-time cattle dealers, said that he never in all his time had seen so many poor quality cattle on the Toronto market.

Considering the heavy run of all kinds of stock, there must have been a fair trade, as only a few loads were reported. To the extent of \$10,000, the market prices were never lower, if as low, in the last decade.

Exporters.

None on sale, excepting a few bulls, which sold at lower prices than at any time this year, at \$3 to \$4 per cwt.

Butchers.

The highest price quoted for selected lot was \$22 1/2, week to the previous week there were few bought at that price. Best loads sold from \$4 to \$4.50; common from \$18.00 to \$20.00; Yorks, \$3.35; mixed, \$2.50 to \$2.75; canners, 11c to 12c; culls, \$2.00 to \$2.25 per cwt.

Feeders and Stockers.

H. W. Murby reports larger receipts of stockers and feeders, this week, with the season's demand, which is chiefly for the heavy class. The light stockers are slow sellers and sell off a little in the past few days. Cows, yearlings and medium kind, which class cannot help but get cheaper. Messrs. Murby bought 200 head of bulls, at following quotations: Good feeders, 100 to 110 lbs. each, at \$2.25 to \$2.50; good feeders, 80 to 100 lbs. each, at \$2.25 to \$2.50; good feeders, 60 to 80 lbs. each, at \$2.25 to \$2.50; common stockers, 600 to 700 lbs. each, at \$2.25 to \$2.50.

Messrs. Murby are open to buy several carloads of heavy feeders, and will take them at \$2.25 to \$2.50. They will also buy for sale would do well to communicate. Address: Western Cattle Market.

#### Milch Cows.

Trade in milkers and springers was dull, prices being 2c to 3c lower than on Wednesday morning. The quality of those offered was of medium to good. The market was always slow to sell, even when there is a good demand. For the few cows that were on the market, prices were from \$32 to \$42, and there were several cows left over.

#### Veal Calves.

Prices ranged from \$3 to \$6 per cwt., with the season's demand, which is chiefly for the heavy class. The light stockers are slow sellers and sell off a little in the past few days. Cows, yearlings and medium kind, which class cannot help but get cheaper. Messrs. Murby bought 200 head of bulls, at following quotations: Good feeders, 100 to 110 lbs. each, at \$2.25 to \$2.50; good feeders, 80 to 100 lbs. each, at \$2.25 to \$2.50; good feeders, 60 to 80 lbs. each, at \$2.25 to \$2.50; common stockers, 600 to 700 lbs. each, at \$2.25 to \$2.50.

### NEWFOUNDLAND SUPPLY CAN BE QUARRIED LIKE STONE.

NEWFUNDLAND, N. S., Oct. 3.—A number of American capitalists and mining experts are at present interesting themselves in an iron ore proposition at St. George's, on the west coast of Newfoundland, which in the near future may develop untold possibilities for the fortunate owners.

The mountain of ore runs into the sea. The face of the cliff runs up in place of the usual mining process, which will have to be carried away from its present position.

#### RECEIPTS IN AUGUST HEAVY IN HISTORY OF THE ROAD.

OTTAWA, Oct. 3.—The returns of the Intercolonial Railway for the month of August amount to \$888,000, and were the largest earnings in the history of the road.

In spite of wage increases this season, which will add at least \$300,000 to the operating account for the current year, it is hoped that a surplus will be made at least as comfortable as last year.

#### BARN BURNED, CROP GONE.

FLESHERTON, Oct. 3.—(Special.)—A bad fire occurred here this afternoon, when W. Talbot's barn was destroyed.

They were threshing there at the time and the fire is supposed to have originated from the engine. The separator, the barn and the barn as well as the crop and 300 bushels of last year's grain, and the net amount to \$123,234.

### NOTED METHODIST DEAD.

PHILADELPHIA, Oct. 3.—The Rev. James M. Kling, LL.D., executive of the mission and church extension of the Methodist Episcopal Church and known throughout the world of Methodism, died at his home here to-day of acute peritonitis.

### QUOTATIONS ARE LOWER ON FORCED SELLING

Trethewey and White Bear Make Low Prices at Local Mining Markets.

World Office, Thursday Evening, Oct. 3.

On further forced liquidation Trethewey sold down to 11 to-day, although only 25 shares changed hands at this price. The opening sales were at 63, but on pressure it eased off. Cobalt Central was active at around 23 and 27. White Bear, the one-time favorite of former days, opened at 24, but on large sales it worked down to 18, which is the price it has held for a long time. The volume of business in White Bear was considerable, 15,500 shares being dealt in. Silver Queen sold at \$3 for 100 shares, while Nipissing closed steady around 21c and 22c. There is practically no news in the street to-day, and the market is being held by the brokers over that any fresh stimulus would quickly influence the mining list.

#### Strike on Nova Scotia.

It is reported that a new strike has been made on the Nova Scotia property. The find was made by a drift at the foot level. The lode is an extension of the first vein found on the property, but never worked.

#### Editor World:

In this morning's issue of the World Mr. Moore writes a brief article on the mines of Larder Lake, which is very interesting, but not so accurate as Reddick Co. He says Reddick employ 12 men; this should be 15 men. He says the mine has 100 ft. of level, and two drills. This should be 120 ft. of level, and four drills (steam). Each shaft has a 30 ft. boiler and two drills. This is the Kerr-Larder Mines with a 20 stamp mill at Eastern Station. This stamp mill lying at Eastern Station belongs to the Reddick Mines and awaits export of good tools. It has been brought in and installed. Mr. Moore's facts are usually accurate and I send you this merely to the moment the matter promptly, otherwise I would have written Mr. Moore direct. Yours respectfully, Rannall Sawyer, Montreal, Oct. 3, 1907.
