GOLD MINING IDEAS

Have Already Taken Root in This City. The gold mining idea, which seems destined to occupy a large share of attention throughout Canada soon, has already in this city. The London Gold Mining and Development Company is the first to represent this idea in concrete form here. It held its first shareholders' meeting, or rather subscribers' meeting for the company is now applying for incorporation, in the law office of Mr. G. N. Weekes, last evening, the 14th inst. The chief business was to perfect its provisional organization, and to give some parting instructions to its man-Cargoes off coast—Wheat and corn, nothing doing.

He was formerly chief engineer of the International Radial Railway, and has been concerned in numerous other works of magnitude. Mr. Powell will now proceed at once to Rossland, B.C., the present center of gold mining excitement, to make some careful invest-ments on the company's behalf before the great boom which everyone expects next spring.

Judging from the names of the first directors, the business of the company

is bound to be pushed forward by every honorable means. They are nineteen in number, and are all, with three exceptions, London men, and men whose names should inspire confidence in the undertaking when the company shall wish to sell its stock. The company does not purpose at first to operate mines, producing and shipping or smelting ore, but rather to buy an interest, wherever possible a controlling interest, in partially developed mining claims, putting the purchase money into further development up to the point of proving the existence of pay ore, then selling out to the foreign or other mining syndicates who will put in plant and operate. Thus the company will have on its hands several or many mining claims on which development work in all stages will be going on, and will be continually buying and selling. The company is to be incorporated under the laws of Ontario, which provide for the shareholders' absolute exemption from personal liability. . The fees for incorporation in this Province are extremely high, but the promoters prefer to pay the high fees and insure

such protection to purchasers of stock. POSTMASTER FARROW'S CASE. (Special to The Advertiser.)

LIFE SAVED .- Mr. James Bryson my bed with inflammation of the lungs, and was given up by physicians. A neighbor advised me to try Dr. Thomas' Eclectric Oil, stating that his wife had used it for a throat trouble with the best results. Acting on this advice, I procured the medicine and less than half a bottle cured me; I certainly believe it saved my life. It was with reluctance that I consented to a trial, as I was reduced to such a state that I doubted the power of any remedy to do me any good."

No one need fear cholera or any summer complaint if they have a bottle of Dr. J. D. Kellogg's Dysentery Cordial ready for use. It corrects all looseness of the bowels promptly, and causes a healthy and natural action. This is a medicine adapted for the young and old, rich and poor, and is rapidly becoming the most popular medicine for cholera, dysentery, etc., in the market.

## AN ARMY WEDDING

Creighton Married.

Before 500 people at Salvation Army Citadel last night, Miss (Capt.) Ettie Lowery, of Hamilton, formerly of this city, was wedded to Ensign Charles Creighton, of the Chatham corps. Brigadier Margetts tied the knot in the army fashion. Miss (Capt.) Collett and Capt. Smeaton, of Toronto, supported the bride and groom respectively. Before the wedding the bridal party and guests partook of a capital supper, reversing the usual order. The army ceremony is more spectacular than the church ritual. When the bridal party appeared, the assembled soldiers fired a volley. The happy couple received showers of con-gratulations. After a honeymoon in

ber of years as carpenter in the G. T. R. shops. He was a highly respected citizen of retiring disposition—an affectionate husband and loving father. He was an adherent of the Dundas Center Methodist cupied it.

The man who had been captured, with two comrades, while they were hastening to rejoin their friends of the government party. His companions in misery thought it mattered little, so long as they had to die, in what fashion they were buried. So they scooped out a few feet of earth with the tools their captors gave them, stood up in these hollows, and were shot back into them, dead; but the third man declared he was not going to let his body lie so near the surface, and he accordingly dug carefully to the depth of six feet, smoothing the sides of the grave and sharpening th

corners. While he was thus engaged at the conducted an extensive business in Notting-ham. England, afterwards going to France shots above him, and when he poked his head up over the edge of the grave, it was to see his own troops running down the mountainside and his enemies disappearing before them. He is still alive and frequently rides past the hole in the roadside, on his way to the capital.

> "For years I could not eat writes: many kinds of food without producing a burning, excruciating pain in my stomach. I took Parmelee's Pills according to directions under the head of 'Dyspepsia or Indigestion.' One box entirely cured me. I can now eat anything I choose without distress-ing me in the least." These pills do not cause pain or griping, and should be used when a cathartic is required. Use Kur-a-Kof, the cough and cold cure, 25c, at Anderson & Nelles' Drug Store.
