What Picquart's Evidence Proved for Dreyfus-Overwhelming Proof Will Be Required.

Another Alleged Victim of the Dreyfus Trial-Col. Lohe Thought to Have Killed Himself.

Lorenzo Marquez, Delagoa Bay, Aug. 18 .- The Government of the South African Republic is making strenuous efforts to persuade the local Portuguese authorities to permit the passage of ammunition. President Kruger has personally wired a request to that effect, stating that a modus vivendi with Great Britain is assured. Two thousand cases of arms are due to arrive here tomorrow on the German steamer Koeing, from Hamburg, July 5.

Pretoria, Aug. 18 .- The government has received no reply to its dispatch to the authorities of Lorenzo Marques regarding the stoppage of a consignment of stores now in Delagoa Bay. Cable instructions have been sent to Dr. Leyds, plenipotentiary of the South African Republic in the United States, to proceed to Lisbon and make representations to the Portuguese Government with regard to the landing of the war materials.

The Volksraad today continued the discussion of the dynamite monopoly, the debate being carried on until the hour of adjournment.

JOUREST'S APPEAL.

London, Aug. 19.—The Cape Town orrespondent of the Daily Mail says Gen. Joubert's appeal, which will reach the Queen tomorrow (Saturday), is a canting pamphlet, reciting the history of the Dutch in South Africa. He laments the discovery of gold in the Transvaal, which has led, he says, to British oppression of the Boers, and he stigmatizes the recent appeal of the Uitlanders as a false document, as-serting that the wire-pullers of the vile scheme are Cecil Rhodes and Joseph Chamberlain, whom he couples with Jameson. Alluding to the Applebe murder, he reminds the Queen of the "Jack the Ripper crimes in London."

TROOPS FOR THE FRONT. Cape Town, Aug. 18 .- Military contingents are daily leaving here and other cities for the Transvaal frontier, and recruiting is active.

Col. Caldwell lives at Syracuse, N. Y., and tells of his remarkable experience with Dr. Chase's Kidney-Liver Pills in the following letter:

#### HOLDING THE FORT

Guerin Will Not Surrender-Siege To Be Maintained.

Paris, Aug. 19 .- M. Guerin decided tonight to energetically maintain his own propositions and refused to accept those proposed by Gen. Jacquey. M. Guerin's decision not to surrender was delivered after a deputation of the national defense group had waited on him and informed him of the contents of the semi-official note. Gen. Jacquey and M. Firmin, Faure, Revisionist and Anti-Semite, a deputy from Oran, Algeria, had numerous interviews during the day with members of the Chamber of Deputies and also with Premier Waldeck-Rosseau, whereupon Gen. Jacquey submitted his propositions for surrender. It is now said M. Lasies, anti-Semite deputy from the district of Gers, has decided to discontinue further negotiations with M. Guerin. Gen. Jacquey, who is a Republican member of the Chamber of Deputies. Deputies, representing the Mont de Marsan district of Landes, is also discouraged, and has left Paris.

A semi-official note, issued tonight, ays: "Having consideration for humanity above all things, the government, from the beginning, discredited the idea of storming M. Guerin's house or the seizure of the accused by mere force. Measures for preventing M. Guerin from communicating with the outside world as well as preventing or dispersing all assemblages will maintained, however, as long as pos-

#### PIQUART'S EVIDENCE

Did Much to Remove Unfavorable Impressions - What It Established.

New York, Aug. 19 .- The Rennes correspondent of the Tribune, discussing Thursday's proceedings in the Drey-Glorot was arrested because he said fus court martial, cables: Col. Picquart in a cabaret yesterday: "I am the apparently did much to remove the unman who shot Labori." The police, it favorable impressions retained by the court after Roget's wholesale affirmato attract attention, and his so- tion of Dreyfus' guilt and Esterhazy's called confession my turn out to be innocence. The following points were

First, that contrary to the testimony of Generals Mercier, Cavaignac and Roget, Dreyfus could not have had access to information about the modifications of plans for assembling troops in case of mobilization, to be thrown toward the frontier to cover actual mobilization.

Second, that contrary to the evidence of Mercier, Cavaignac and Roget, Dreyfus was by no means the only officer civil or military employe, who could have obtained the information indicated by other documents mentioned in the bordereau.

Great astonishment was expressed at another portion of Picquart's testimony, which disclosed the fact that some of the most important secret plans and documents were intrusted to the sole care of a few civil clerks and enlisted men, and kept in a room at the war office, accessible to visitors, where Col. Van Schwartzkoppen and other foreign military attaches were received once a week.

These facts, developed with admirable clearness, made a marked impression on the court, which is, nevertheless, still under the spell of the point blank, swashbuckler affirmations of the galaxy The present look of the case is that evidence of a more sledgehammer and crushing character than has yet been presented will be required in order to convince the court of Drey-

#### ANOTHER VICTIM

Lieut.-Col. Lohe Thought to Have Committed Suicide.

New York, Aug. 19.—A dispatch to the World from Rennes says: Lieut. Col. Lohe, who has been in charge of the mounted gendarmes doing duty about the court-martial, died suddenly yesterday. Anti-Dreyfusites openly charge the Dreyfusites with being re-sponsible for his death. Local newspapers in their accounts of it print in big headlines, "Another Victim of the

Dreyfusites' Venom."

It is rumored that Lohe blew out his brains because of attacks in the newspapers friendly to M. Labori. Another story is that death was due to heart disease. It is practically impossible to get at the truth. At military headquarters it is vehemently denied that

Lohe committed suicide. At the time of the assault on Labori, Lohe led the first platoon detached to maintain order on Richmond bridge, the scene of the shooting. He was somewhat abrupt in handling the friends of the wounded lawyer, who sought to get near him, and his conduct was severely commented upon. Lohe took these attacks to heart, and grew despondent to such a degree that his health was affected. Thursday, durefficacious larative. #### INDICATIONS ARE FOR WAR

Owing to the Hot-Headed Boers, Says Admi al Howison.

New York, Aug. 19.—The Washington correspondent of the Herald says: In a report received at the navy department from Rear-Admiral Howison, that officer describes the tension existing between the Transvaal and Great Britain, and says the report indicates that war may be precipitated by the hot-headedness of the Boers. Though Admiral Howison is not sent to the Transvaal upon any diplomatic mission, he went to that country when the Chicago arrived at Delagoa Bay last month, and joined the ship at Cape Town after having made a careful study of the May Be Used to Unionize Printing conditions prevailing in the sections through which he passed. It would not be surprising, in the event of war, said Admiral Howison, if the British Government required the United States to take care of its interests in the Transvaal and a ship from the South Atlantic station will undoubtedly be sent to Delagoa Bay to look out for American interests.

According to Rear Admiral Howison, there can be only one result of a war between Great Britain and the South African Republic—the absorption of the latter country. The Boers are de-termined, however, to fight for their independence.

It is apparent that Admiral Howison sympathizes with the uitlanders, because they pay five-sixths of the taxes and represent five-sixths of the wealth of the country. Admiral How-ison describes the mines as fabulously rich and devotes a portion of his re-port to the characteristics of the Boers.

### EXTREME MEASURES

Trades in Chicago.

Detroit, Mich., Aug. 18.—After an exceedingly stormy executive session of over three hours, the International Typographical Union decided to leave the settlement of the Chicago difficulty in the hands of the executive coun-cil. The council was empowered to proceed to Chicago, investigate the dif-ficulty and take whatever action was deemed necessary. The question is, whether extreme measures shall be resorted to in unionizing all the allied printing trades in Chicago, in which at present both union and non-union labor is employed.

#### TRADE REPORTS ALMOST PERFECT

No Apprehension Over Transvaal Trouble-Russsian Wheat Crop a Failure.

[Special to The Advertiser by Roath Bros. & Co.'s private wire.]

New York, Aug. 19.-Market disposition decidedly ballish, besides large operations of pools. Public speculation develops broad and vigorous. Grangers and coalers show new life. Southern Pacific and Central Pacific features account large trade by prominent houses. Minneapolis and St. Louis represent extensive speculation movement. Rumors of development or new relations apparently fictitious. St. Paul activity based on inherent merit. Buying in Northern Pacific from good sources. Trade reports almost perfect. Demand for steel considerably exceeds supply. Some report crop damage from hot weather, but unimportant. Burlington and St. Paul join boycott against Pittsburg and Gulf, which will seek protection of courts. Twenty-three roads, second week of August, show increase of 15.23 per cent.

STOCK GOSSIP.

The fact that there will be no quotations from London will not militate against a fairly active market. Here the leading bankers of the street are bullish on the situation, because they recognize there is nothing within sight that need cause any apprehension. The condition of the home trade was never ctory nor for that matter more sa for low-priced issued. Southern Pacific will sell in the neghborhood of 70 before the close of the year.
